

Subject card

Subject name and code	Rural project , PG_00061488						
Field of study	Architecture						
Date of commencement of studies	October 2023	Academic year of realisation of subject			2024/2025		
Education level	first-cycle studies	Subject group			Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			Polish		
Semester of study	3	ECTS credits			3.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Department of Environmental Design -> Faculty of Architecture						
Name and surname of lecturer (lecturers)	Subject supervisor	dr hab. inż. arch. Anna Górka					
	Teachers	mgr inż. arch. Magdalena Szarejko dr hab. inż. arch. Anna Górka mgr inż. arch. Maura Zaworska					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	40.0	0.0	40
E-learning hours included: 0.0							
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study		SUM
	Number of study hours	40	6.0		29.0		75
Subject objectives	The aim of the course is the formation of basic skills in the field of rural landscape design in term of sustainability.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K6_U03] is able to prepare a graphic, written and oral presentation of your own design concepts in the field of architecture and urban planning, meeting the requirements of a professional record appropriate for architectural and urban design	in an orderly manner, presents his own solutions in the field of rural landscape design			[SU1] Assessment of task fulfilment		
	[K6_W02] knows and understands the rules of gathering information and their interpretation as a part of project concept preparation; issues related to architecture and urban planning in the field of simple design problems solving	in an orderly manner, collects and interprets information in order to solve simple problems in rural landscape design			[SW3] Assessment of knowledge contained in written work and projects		
Subject contents	The program of classes is formed by: - a set of pre-design analyzes in rural landscape design (studies of natural, cultural and visual resources) - spatial development strategy of the sustainable village - landscape design study of a selected area (using solutions that increase the resilience of the ecosystem and social environment)- presentation of the rural landscape project						
Prerequisites and co-requisites	completing rural practice						

Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
		100.0%	90.0%
		100.0%	10.0%
