

Subject card

Subject name and code	Theory of rural architecture, PG_00061515								
Field of study	Architecture								
Date of commencement of studies	October 2023	Academic year of realisation of subject		2024/2025					
Education level	first-cycle studies		Subject group		Obligatory subject group in the field of study Subject group related to scientific research in the field of study				
Mode of study	Full-time studies		Mode of delivery		at the university				
Year of study	2	Language of instruction		Polish					
Semester of study	3	ECTS credits		1.0					
Learning profile	general academic profile		Assessment form		exam				
Conducting unit	Department of Environmental Design -> Faculty of Architecture								
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. inż. arch. Katarzyna Zielonko-Jung						
	Teachers		dr hab. inż. arch. Katarzyna Zielonko-Jung						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM		
	Number of study hours	15.0	0.0	0.0	0.0	0.0	15		
	E-learning hours included: 0.0								
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM		
	Number of study hours	15	2.0		8.0	25			
Subject objectives	The aim of the course is to provide knowledge about the conditions and principles of planning and designing rural landscape.								
Learning outcomes	Course outcome		Subject outcome			Method of verification			
	[K6_K03] is ready to take responsibility for architectural and urban values in environmental protection and cultural heritage		understands the responsibility for designing of rural landscape in a way that does not worsen the natural, cultural and aesthetic values			[SK4] Assessment of communication skills, including language correctness			
	[K6_W02] knows and understands the rules of gathering information and their interpretation as a part of project concept preparation; issues related to architecture and urban planning in the field of simple design problems solving		knows the scope of pre-design research in rural landscape design and understands their principles			[SW1] Assessment of factual knowledge			
	[K6_W03] knows and understands history and theory of architecture as well as art, technology and humanities to the extent necessary for the proper performance of architectural designs; issues related to architecture and urban planning useful for the design of architectural objects and urban complexes in the context of social, cultural, natural, historical, economic, legal and other non-technical conditions of engineering activities, integrating knowledge acquired during studies;		understands the natural and cultural conditions of rural development; defines the basic concepts of visual landscape analysis; describes the historical types of rural settlements; knows the types of land use in rural areas, functions of buildings and greenery; knows the legal basis of spatial planning and landscape design			[SW1] Assessment of factual knowledge			
Subject contents	<ol style="list-style-type: none">Basic concepts of spatial planning of rural areasIntroduction to the composition of the rural landscapeHistory of rural settlement and types of village layoutsFeatures of traditional farm buildings on the example of PomeranianContemporary problems and challenges of rural landscape planning and designning								

Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
		51.0%	100.0%
