|   | E-learning hours included: 0.0  |  |  |                                     |  |            |     |
| Learning activity and number of study hours | Learning activity   | Participation in didactic classes included in study plan |  | Participation in consultation hours |  | Self-study | SUM |
|   | Number of study hours   | 0  |  | 4.0                                 |  | 46.0       | 50  |
| Subject objectives                          | The aim of the course is to prepare students to perform design tasks through research of sources and the study of an area.  |  |  |                                     |  |            |     |
| Learning outcomes                           | Course outcome  |  | Subject outcome  |                                     | Method of verification   |            |     |
|   | [K6_W02] knows and understands the rules of gathering information and their interpretation as a part of project concept preparation; issues related to architecture and urban planning in the field of simple design problems solving   |  | in an orderly manner, collects and presents information necessary to develop a design concept of rural landscape |                                     | [SW3] Assessment of knowledge contained in written work and projects                         |            |     |
|   | [K6_U03] is able to prepare a graphic, written and oral presentation of your own design concepts in the field of architecture and urban planning, meeting the requirements of a professional record appropriate for architectural and urban design  |  | in an orderly manner, presents information necessary to develop a design concept of rural landscape              |                                     | [SU1] Assessment of task fulfilment  |            |     |
|   | [K6_U02] is able to design an architectural object or a simple urban complex that meets the aesthetic and technical requirements  |  | in an orderly manner, collects information necessary to develop a design concept of rural landscape              |                                     | [SU1] Assessment of task fulfilment  |            |     |
| Subject contents                            | Study of the landscape of the selected village:<br><br>• general description of the village<br>• description of impressions from the landscape<br>• land use inventory<br>• inventory of rural spatial development<br>• classification of elements of rural development<br>• drawing open air |  |  |                                     |  |            |     |
| Prerequisites and co-requisites             |   |  |  |                                     |  |            |     |

|  |   |                                  |                               |
