

Subject card

Subject name and code	Diagnostics of railways, PG_00044674						
Field of study	Transport						
Date of commencement of studies	October 2023		Academic year of realisation of subject		2025/2026		
Education level	first-cycle studies		Subject group		Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	3		Language of instruction		Polish		
Semester of study	6		ECTS credits		4.0		
Learning profile	general academic profile		Assessment form		exam		
Conducting unit	Department of Railway Engineering -> Faculty of Civil and Environmental Engineering						
Name and surname of lecturer (lecturers)	Subject supervisor						
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	0.0	0.0	15.0	0.0	45
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	45		10.0		45.0	100
Subject objectives	The aim of the course is to familiarize students with the diagnostics of railroads and to teach basic methods and techniques for measuring and assessing the condition of the railroad.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_W18] has proficiency in transport infrastructure as appropriate for their specialty		Has ordered knowledge in the field of railway road diagnostics				
	[K6_U13] able to select tools and methods, carry out assessments and simple tests of transport infrastructure and means of transport to an extent required of the specialty / learning profile		Can select tools and methods as well as carry out simple measurements and assessment of the condition of the railroad				
Subject contents	Railroad diagnostics. Track geometry quality. Diagnostics of railway track elements. Diagnostics of railway turnouts. Diagnostics of the CWR.						
Prerequisites and co-requisites							
Assessment methods and criteria	Subject passing criteria		Passing threshold		Percentage of the final grade		
	Exam		50.0%		50.0%		
	Project		50.0%		50.0%
