

Subject card

Subject name and code		Geodesy I, PG_00044795						
Field of study		Geodesy and Cartography						
Date of commencement of studies		October 2023	Academic year of realisation of subject			2023/2024		
Education level		first-cycle studies	Subject group			Obligatory subject group in the field of study		
Mode of study		Full-time studies	Mode of delivery			at the university		
Year of study		1	Language of instruction			Polish		
Semester of study		1	ECTS credits			7.0		
Learning profile		general academic profile	Assessment form			exam		
Conducting unit		Department Of Geodesy -> Faculty Of Civil And Environmental Engineering -> Wydziały Politechniki Gdańskiej						
Name and surname of lecturer (lecturers)		Subject supervisor		dr inż. Daria Filipiak-Kowszyk				
		Teachers		dr inż. Daria Filipiak-Kowszyk dr inż. Tadeusz Widerski dr inż. Karolina Makowska-Jarosik				
Lesson types and methods of instruction		Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
		Number of study hours	45.0	15.0	30.0	0.0	0.0	90
		E-learning hours included: 0.0						
Learning activity and number of study hours		Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study		SUM
		Number of study hours	90	12.0		73.0		175
Subject objectives		The purpose of the subject is to convey student the knowledge in the field of basic geodetic measurements and calculations.						
Learning outcomes		Course outcome		Subject outcome		Method of verification		
		[K6_U11] is able to develop geodetic documentation and perform individually as well as in a group, field and field surveying surveys		Student performs geodetic measurements Student prepares basic geodetic documentation regarding levelling traverse, polygon traverse and survey of details.		[SU2] Assessment of ability to analyse information [SU4] Assessment of ability to use methods and tools [SU1] Assessment of task fulfilment		
		[K6_U13] is able to apply the principles of health and safety at work during the execution of geodetic works		The student is able to apply the principles of safe surveying and usage, transfer and storage of surveying instruments.		[SU1] Assessment of task fulfilment		
		[K6_W06] has a well-grounded knowledge and understands geodesy concepts including the main methods of obtaining data about space together with the surveying and computational methods, which from the one hand are compatible with the current legal status and from the other hand refer to measurements on the plane and cover the use of modern geodetic instruments, with taking into account the curvature of the Earth and the impact of gravity on the manner of measurements and results		The student possess the knowledge and uses the information concerning the performance of basic geodetic measurements and calculations.		[SW1] Assessment of factual knowledge [SW3] Assessment of knowledge contained in written work and projects		

Subject contents	<p>Lecture:</p> <ol style="list-style-type: none"> 1. Direct levelling and trigonometric levelling 2. Angle and distance measurements 3. Topographic survey 4. Principles of coordinate calculus 5. Law of propagation of mean errors <p>Classes:</p> <ol style="list-style-type: none"> 1. Measurement units conversion 2. Levelling traverse calculus 3. Horizontal angle calculus 4. Principles of coordinate calculus 5. Law of propagation of mean errors <p>Laboratories:</p> <ol style="list-style-type: none"> 1. Levelling traverse measurements 2. Horizontal angle measurements 3. Polygon traverse measurements 4. Survey of details 														
Prerequisites and co-requisites
