

表 GDAŃSK UNIVERSITY OF TECHNOLOGY

Subject card

Subject name and code	Diploma seminar, PG_00043659								
Field of study	Environmental Engineering								
Date of commencement of studies	October 2020		Academic year of realisation of subject			2023/2024			
Education level	first-cycle studies		Subject group						
Mode of study	Full-time studies		Mode of delivery			at the university			
Year of study	4		Language of instruction			Polish			
Semester of study	7		ECTS credits			4.0			
Learning profile	general academic profile		Assessment form			assessment			
Conducting unit	Department of Environmental Engineering Technology -> Faculty of Civil and Environmental Engineering								
Name and surname of lecturer (lecturers)	Subject supervisor	dr hab. inż. Krzysztof Czerwionka							
	Teachers		dr hab. inż. Krzysztof Czerwionka						
			dr hab. Katarzyna Jankowska						
Lesson types and methods	Lesson type	Lecture	Tutorial	Laboratory	Projec	t	Seminar	SUM	
of instruction	Number of study hours	0.0	0.0	0.0	0.0		45.0	45	
	E-learning hours included: 0.0								
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study		SUM	
	Number of study hours	45		5.0		50.0		100	
Subject objectives	 Student: 1. acquire the ability to briefly present the work done and the results achieved, as well as to discuss and defend the theses and proposed solutions in public. 2. communicates the developed contents, defends and specifies the assumptions and methodology of the thesis and the thesis. 3. broadens the acquired knowledge on selected topics from the environmental engineering industry, including current design and implementation activities. 4. acquires the ability of soft comeptitude related to selfpresentationTranslated with www.DeepL.com/Translator (free version) 								

Learning outcomes Course outcome		Subject outcome	Method of verification			
	[K6_U03] can prepare documentation regarding the implementation of an engineering task/project and prepare a text or presentation including a discussion of the results of the implementation	Preparation and presentation of the diploma thesis.	[SU5] Assessment of ability to present the results of task [SU1] Assessment of task fulfilment			
[K6_U01] has the ability t education, can obtain info from literature, databases other sources, uses inform technology, Internet reso can integrate the obtaine information, make their interpretation, as well as conclusions and formulat justify opinions		Preparation and presentation of the diploma thesis.	[SU5] Assessment of ability to present the results of task [SU3] Assessment of ability to use knowledge gained from the subject [SU2] Assessment of ability to analyse information			
	[K6_K01] can think and act in a creative and enterprising way; can set priorities for the implementation of an individual or group task; understands the need for continuous training and professional responsibility for their activities and team	Preparation and presentation of the diploma thesis.	[SK2] Assessment of progress of work [SK5] Assessment of ability to solve problems that arise in practice [SK3] Assessment of ability to organize work			
	[K6_K02] understands the need to formulate and communicate to the public information and opinions on the achievements of environmental engineering and other aspects of the sanitary industry engineer's activity; is aware of the importance and understands the non-technical aspects and effects of engineering activities; makes efforts to provide such information and opinions in a widely understandable way, presenting different points of view	Preparation and presentation of the diploma thesis.	[SK5] Assessment of ability to solve problems that arise in practice [SK4] Assessment of communication skills, including language correctness			
[K6_W18] has a structured and in- depth knowledge of environmental engineering as part of the diploma profiles offered		Preparation and presentation of the diploma thesis. Ability to answer exam questions. The ability to undertake discussions on topics related to the scope of studies.	[SW2] Assessment of knowledge contained in presentation [SW1] Assessment of factual knowledge			
Subject contents	Presenting papers on a selected top	ic and related to the thesis. Discussi	on of these issues.			
Prerequisites and co-requisites						
Assessment methods and criteria	Subject passing criteria Thematic presentation on a selected topic or thesis	Passing threshold 65.0%	Percentage of the final grade 100.0%			
Recommended reading	Basic literature	In line with the subject of the thesis.				
Recommended reading	Supplementary literature	j.w.				
	eResources addresses	Adresy na platformie eNauczanie: Seminarium dyplomowe TwlŚ - 2023/24 - Moodle ID: 34459 https://enauczanie.pg.edu.pl/moodle/course/view.php?id=34459				

Example issues/ example questions/ tasks being completed	1. Disasters in environmental engineering.
	2. Innovative technologies in environmental engineering.
	3. Self-presentation.
	4. Planning of research.
	5. Presentation of research results and discussion.
Work placement	Not applicable
