

Subject card

Subject name and code	Diploma Seminar, PG_00059396						
Field of study	Mechanical Engineering						
Date of commencement of studies	February 2024	Academic year of realisation of subject			2024/2025		
Education level	second-cycle studies	Subject group			Optional subject group		
Mode of study	Part-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			Polish		
Semester of study	3	ECTS credits			2.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Zakład Pojazdów Mechanicznych i Techniki Militarnej -> Institute of Mechanics and Machine Design -> Faculty of Mechanical Engineering and Ship Technology						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. inż. Piotr Mioduszewski				
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	18.0	18
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	18		4.0		28.0	50
Subject objectives	The aim of the course is to verify students' progress during the completion of the diploma thesis by regularly presenting their progress.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K7_U04] is able to prepare and present a presentation of a solution of a construction or technological task and results of performed experiments including the analysis of the results and possible changes in Polish or in a foreign language, is able to organize and manage the work of a team, directing the tasks	The student prepares and presents a presentation on the progress of his diploma thesis.			[SU5] Assessment of ability to present the results of task [SU4] Assessment of ability to use methods and tools		
	[K7_U01] is able to acquire information from specialist literary sources and other sources regarding the construction and operation of machines and related disciplines in Polish and in a foreign language, is able to conduct a self-learning process, is able to synthesize the information, form conclusions and justify opinions	Carrying out the diploma thesis, the student uses appropriate databases, evaluates and synthesizes the obtained information			[SU3] Assessment of ability to use knowledge gained from the subject [SU2] Assessment of ability to analyse information		
	[K7_K04] is able to establish professional contacts and is able to lead and work in a team assuming various roles in the team; is able to show resourcefulness and innovation when realizing professional projects	The student performs the diploma thesis alone or in a team.			[SK1] Assessment of group work skills [SK3] Assessment of ability to organize work		
[K7_K01] is aware of the need for complementing the knowledge throughout the whole life, is able to select proper methods of teaching and learning	Carrying out the diploma thesis, the student uses appropriate databases, evaluates and synthesizes the obtained information			[SK2] Assessment of progress of work [SK5] Assessment of ability to solve problems that arise in practice			
Subject contents	Presentations of the next stages of preparing the diploma thesis and answers to the group's / teacher's questions						

Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Assessment of two presentations of work progress	50.0%	100.0%
Recommended reading	Basic literature	Literature selected according to the subject of the diploma thesis	
	Supplementary literature	-	
	eResources addresses	Adresy na platformie eNauczenie:	
Example issues/ example questions/ tasks being completed	Suitable for the subject of the diploma thesis		
Work placement	Not applicable
