GDAŃSK UNIVERSITY OF TECHNOLOGY

Subject card

Subject name and code	Diploma Seminar, PG_00057411
Field of study	Mechanical Engineering

Date of commencement of studies	February 2024	Academic year of realisation of subject	2024/2025
Education level	second-cycle studies	Subject group	Optional subject group
Mode of study	Full-time studies	Mode of delivery	at the university
Year of study	2	Language of instruction	Polish
Semester of study	3	ECTS credits	2.0
Learning profile	general academic profile	Assessment form	assessment

Conducting unit	Zakład Konstrukcji Maszyn i Inzynierii Medycznej -> Institute of Mechanics and Machine Design -> Faculty of Mechanical Engineering and Ship Technology

Name and surname of lecturer (lecturers)	Subject supervisor	dr hab. inż. Szymon Grymek
	Teachers	

Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	30.0	30
	E-learning hours included: 0.0						

Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM
	Number of study hours	30	6.0	14.0	50

Subject objectives	Student presents in computer form a progress in solving a problem which is a subject of diploma work. He defines the problem, elaborates methodology of the diploma work realisation. He analyses and evaluates the work results, presents conclusions from the analysis.

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K7_U01] is able to acquire information from specialist literary sources and other sources regarding the construction and operation of machines and related disciplines in polish and in a foreign language, is able to conduct a self-learning process, is able to synthesize the information, form conclusions and justify opinions	Ability to perform complex tasks design task.	[SU1] Assessment of task fulfilment
	[K7_K01] is aware of the need for complementing the knowledge throughout the whole life, is able to select proper methods of teaching and learning	Student presents the topic and results of your work in a way professional and understandable, with simultaneous behavior principles of ethics and respect diversity.	[SK2] Assessment of progress of work
	[K7_U04] is able to prepare and present a presentation of a solution of a construction or technological task and results of performed experiments including the analysis of the results and possible changes in Polish or in a foreign language, is able to organize and manage the work of a team, directing the tasks	student interprets correctly information in scientific literature foreign language.	[SU2] Assessment of ability to analyse information
	[K7_K04] is able to establish professional contacts and is able to lead and work in a team assuming various roles in the team; is able to show resourcefulness and innovation when realizing professional projects	student presents the topic and the results of your work in an understandable way way.	[SK2] Assessment of progress of work

Subject contents	A computer presentation of realised diploma work in accordance with its subject in Polish and English.		
Prerequisites and co-requisites	Knowledge and abilities reached during a study at particular direction.		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Participation in class	80.0%	50.0%
	Multimedia presentation	100.0%	50.0%
Recommended reading	Basic literature	According to the needs of diploma work subject.	
	Supplementary literature	According to directions of the diploma work guide.	
	eResources addresses	Adresy na platformie eNauczanie:	
Example issues/ example questions/ tasks being completed			
Work placement	Not applicable
