

## Subject card

Subject name and code	Protection works, PG_00058989						
Field of study	Civil Engineering						
Date of commencement of studies	October 2023		Academic year of realisation of subject		2023/2024		
Education level	first-cycle studies		Subject group				
Mode of study	Part-time studies		Mode of delivery		at the university		
Year of study	1		Language of instruction		Polish		
Semester of study	1		ECTS credits		2.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department of Building Engineering -> Faculty of Civil and Environmental Engineering						
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. Adam Kristowski				
	Teachers		dr inż. Adam Kristowski				
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	5.0	0.0	0.0	0.0	20
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	20		1.0		30.0	51
Subject objectives	Preparation to manage and perform professional work in a safe manner, observing legal requirements and principles of health and safety and functioning on the labour market.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_K71] is conscious of the need to apply knowledge from humanistic, social, economic or legal sciences in order to function in a social environment		Knows the existing hazards in terms of health and safety and can counteract them.		[SK5] Assessment of ability to solve problems that arise in practice		
	[K6_W71] has general knowledge in humanistic, social, economic or legal sciences		It has the ability to analyze and characterize issues in running a business.		[SW1] Assessment of factual knowledge		
	[K6_U71] is able to apply knowledge from humanistic, social, economic or legal sciences in order to solve problems in a social environment		Knows the principles of organization and economics of conducting construction and installation work.		[SU2] Assessment of ability to analyse information		
Subject contents	- application of the regulations defining the requirements of safety and hygiene at work,- improvement of working conditions in accordance with the principles of ergonomics, organisation and economy of enterprises,- preparation of health and safety documentation related to the activity in the construction sector,- risk assessment procedure.						
Prerequisites and co-requisites							
Assessment methods and criteria	Subject passing criteria		Passing threshold		Percentage of the final grade		
	colloquium		60.0%		50.0%		
	credit for the project		60.0%		50.0%
