

Subject card

Subject name and code	Integrated design process - industry consultations, PG_00056911						
Field of study	Architecture						
Date of commencement of studies	October 2022		Academic year of realisation of subject		2023/2024		
Education level	second-cycle studies		Subject group		Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	2		Language of instruction		Polish		
Semester of study	3		ECTS credits		4.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Faculty of Architecture						
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. arch. Anna Wancław				
	Teachers		dr inż. arch. Karolina Zielińska-Dąbkowska				
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	30.0	0.0	15.0	0.0	45
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	45		8.0		47.0	100
Subject objectives	Raising awareness of the multi-industry context of architectural and urban design and acquiring the ability to cooperate with other specialists						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K7_K04] is ready for lifelong learning, by taking up doctoral and postgraduate education or participating in other forms of education		is ready for lifelong learning, by taking up different forms of education		[SK5] Assessment of ability to solve problems that arise in practice		
	[K7_W05] knows and understands issues related to architecture and urban planning in the context of the multi-discipline nature of architectural and urban design as well as the need to cooperate with other specialists; legal provisions and procedures necessary for the implementation of building designs and the integration of buildings with the overall planning project		knows and understands issues related to architecture and urban planning in the context of the multi-discipline nature of architectural and urban design as well as the need to cooperate with other specialists;		[SW3] Assessment of knowledge contained in written work and projects		
Subject contents	DIPLOMA CONSULTATIONS: Individually selected to design issues: construction, sanitary installations, heating and ventilation systems, electrical and telecommunication systems, development of comfortable environment in facility, urban planning determinants and legal requirements, conservation and preservation requirements, sustainable architectural design, environmental impact assessments,						
Prerequisites and co-requisites	passing the module: Diploma design I						
Assessment methods and criteria	Subject passing criteria		Passing threshold		Percentage of the final grade		
	konsultacji specjalistyczne z zakresu 3 różnych branż		100.0%		100.0%		
Recommended reading	Basic literature		Selected individually by student's supervisor depending on the thesis specifics.				
	Supplementary literature		Selected individually by student's supervisor depending on the thesis specifics.				
	eResources addresses		Adresy na platformie eNauczanie:				

Example issues/ example questions/ tasks being completed	Consultation topics selected individually by the work supervisor depending on the subject of the diploma thesis, e.g. : construction and material solutions, building acoustics, landscape, ecological and environmental aspects, communication solutions, etc.
Work placement	Not applicable
