

## Subject card

Subject name and code	ENVIRONMENTAL IMPACT ASSESSMENT, PG_00060002						
Field of study	Environmental Engineering						
Date of commencement of studies	February 2024		Academic year of realisation of subject		2024/2025		
Education level	second-cycle studies		Subject group		Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	1		Language of instruction		English		
Semester of study	2		ECTS credits		2.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department of Environmental Engineering Technology -> Faculty of Civil and Environmental Engineering						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. inż. Aneta Łuczkiwicz				
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	15.0	0.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		5.0		20.0	55
Subject objectives	The aim of the course is to introduce the student with the procedure of environmental impact assessment (EIA) of a planned project. The student learns the classification of projects and the methodology for forecasting the impact of planned investments on individual components of the environment. Additionally the instruments of environmental protection will be studied - on the country level and worldwide.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K7_W08] has knowledge necessary to understand the social, economic, legal and other non-technical determinants of engineering activities and their incorporation in engineering practice		The student understands the problems related to the conflict of interest of various social groups		[SW1] Assessment of factual knowledge		
	[K7_U08] is able to assess risks in the implementation of engineering projects and implement appropriate safety rules		The student is able to explain the scope and necessity of carrying out the EIA procedure for a given investment on the basis of Polish and European legislation.		[SU2] Assessment of ability to analyse information		
	K7_W03		The student understands the problems related to the conflict of interest of various social groups		[SW1] Assessment of factual knowledge		
K7_W05		The student understands the problems related to the conflict of interest of various social groups		[SW1] Assessment of factual knowledge			
Subject contents	Lecture: introducing the students to the most important instruments of environmental protection - country specific and worldwide. During the course, students learn about the functioning of the environmental impact assessment system and the requirements of national and EU legislation.  Classes: Impact of a selected investment; on the environment.						
Prerequisites and co-requisites	General knowledge of legal acts in the field of environmental protection.						

Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Tutorials	60.0%	40.0%
	Lectures	60.0%	60.0%
