

Subject card

| | | | | | | | |
|---|--|--|---|-------------------------------------|--|------------|-----|
| Subject name and code | Measurement techniques, PG_00057265 | | | | | | |
| Field of study | Power Engineering | | | | | | |
| Date of commencement of studies | February 2024 | Academic year of realisation of subject | | | 2024/2025 | | |
| Education level | second-cycle studies | Subject group | | | Optional subject group Subject group related to scientific research in the field of study | | |
| Mode of study | Full-time studies | Mode of delivery | | | at the university | | |
| Year of study | 1 | Language of instruction | | | Polish | | |
| Semester of study | 2 | ECTS credits | | | 2.0 | | |
| Learning profile | general academic profile | Assessment form | | | assessment | | |
| Conducting unit | Zakład Maszyn Przepływowych -> Institute of Energy -> Faculty of Mechanical Engineering and Ship Technology | | | | | | |
| Name and surname of lecturer (lecturers) | Subject supervisor | | dr inż. Wojciech Włodarski | | | | |
| | Teachers | | dr inż. Wojciech Włodarski | | | | |
| Lesson types and methods of instruction | Lesson type | Lecture | Tutorial | Laboratory | Project | Seminar | SUM |
| | Number of study hours | 15.0 | 0.0 | 15.0 | 0.0 | 0.0 | 30 |
| | E-learning hours included: 0.0 | | | | | | |
| Learning activity and number of study hours | Learning activity | Participation in didactic classes included in study plan | | Participation in consultation hours | | Self-study | SUM |
| | Number of study hours | 30 | | 7.0 | | 13.0 | 50 |
| Subject objectives | Providing general knowledge about the methodology of the experiment, broadening the knowledge of selected measurement techniques. | | | | | | |
| Learning outcomes | Course outcome | | Subject outcome | | Method of verification | | |
| | [K7_W02] has extended and deepened knowledge of physics, chemistry, thermodynamics, fluid mechanics, material science, necessary to understand and describe basic thermal and flow phenomena occurring in and around power equipment and systems, transmission networks and internal installations | | The student is able to plan and carry out experiments, including measurements and computer simulations, critically interpret the obtained results and draw conclusions. | | [SW1] Assessment of factual knowledge | | |
| | [K7_U04] is able to plan and perform experiments using measurements and computer simulations, together with interpretation of results, is able to present and evaluate the course and results of work in a team realizing an advanced engineering project, is able to use technical documentation and to create it independently | | The student uses analytical, simulation and experimental methods to formulate and solve engineering tasks. | | [SU1] Assessment of task fulfilment | | |
| | [K7_W03] knows advanced aspects of automation and automatic control of power systems or transmission networks and internal installations | | The student is able to plan and carry out experiments, including measurements and computer simulations, critically interpret the obtained results and draw conclusions. | | [SW1] Assessment of factual knowledge | | |

| | | | | | | | | | | | | | | | | | | | | | |
|---------------------------------|--|-------------------|-------------------------------|------------------|--|--|--|--|--|--|---|--|--|--|--|--|---|--------------------------|--|----------------------|----------------------------------|
| Subject contents | <p>Contents of the lecture:</p> <ol style="list-style-type: none"> 1. Historical development of the experimental method 2. Elements of the experimental method 3. Planning the experiment 4. Approximation of the function of the research object 5. Assessment of measurement errors 6. Selected measurement techniques <p>Content implemented as part of laboratory classes:</p> <ol style="list-style-type: none"> 1. Planning of the experiment 2. Approximation of the function of the research object 3. Analysis of measurement errors 4. Selected measurement techniques | | | | | | | | | | | | | | | | | | | | |
| Prerequisites and co-requisites | | | | | | | | | | | | | | | | | | | | | |
| Assessment methods and criteria | Subject passing criteria | Passing threshold | Percentage of the final grade | | | | | | | | | | | | | | | | | | |
| | | 51.0% | 100.0% | | | | | | | | | | | | | | | | | | |
