

## Subject card

Subject name and code	Thesis, PG_00039351							
Field of study	Civil Engineering							
Date of commencement of studies	October 2022		Academic year of realisation of subject			2023/2024		
Education level	second-cycle studies		Subject group					
Mode of study	Full-time studies		Mode of delivery			at the university		
Year of study	2		Language of instruction			English		
Semester of study	3		ECTS credits			20.0		
Learning profile	general academic profile		Assessment form			assessment		
Conducting unit	Department of Buildir	-> Faculty of Civil and Environmental Engineering						
Name and surname	Subject supervisor	dr inż. Magdalena Pawelska-Mazur						
of lecturer (lecturers)	Teachers							
Lesson types and methods	Lesson type	Lecture	Tutorial	Tutorial Laboratory Project Semina		Seminar	SUM	
of instruction	Number of study hours	0.0	0.0	0.0	0.0		0.0	0
	E-learning hours included: 0.0							
Learning activity and number of study hours	Learning activity	Participation in classes include plan		Participation in consultation hours		Self-study		SUM
	Number of study hours	0		40.0		460.0		500
Subject objectives	Development of advanced skills in the field of construction, within the offered specialties and diploma profiles. Development of a master's thesis. Preparation of the defense of the master's thesis.							
Learning outcomes	Course outcome		Subject outcome			Method of verification		
	[K7_U15] has advanced skills in civil engineering within offered specialization/profile		the student presents advanced skills in the field of construction, within the offered specialties and diploma profiles			[SU3] Assessment of ability to use knowledge gained from the subject		
	[K7_K04] understands the necessity of dissemination civil engineering knowlege in the society and to suport the proffesional ethos of a civil engineer		the student understands the need to maintain the ethos of the civil engineer profession			[SK2] Assessment of progress of work		
	[K7_K02] Rocognizes the significance of knowledge in solving cognitive and practical problems; reliably evaluates results of his own and team research		the student recognizes the importance of knowledge in solving cognitive problems as part of writing a master's thesis			[SK3] Assessment of ability to organize work		
	[K7_W15] has deep and adequate knowlege of civil engineering, within offered specialization and profile		the student has a structured and in-depth knowledge of the field of construction			[SW3] Assessment of knowledge contained in written work and projects		
	[K7_K01] is aware of necessity of professional competences improvement; obeys the professional ethics code		the student knows and respects the rules of professional ethics		[SK1] Assessment of group work skills			
Subject contents	preparation for the de	velopment of a	master's thesi	s		·		
Prerequisites and co-requisites								
Assessment methods and criteria	Subject passing criteria		Passing threshold			Percentage of the final grade		
	submitting a master's thesis					100.0%		
Recommended reading	Basic literature		list of about 10 scientific publications on the subject of the master's thesis					
	Supplementary literature		list of about 10 scientific publications thesis			on the subject of the master's
