

Subject card

Subject name and code	Elective subject, PG_00060404						
Field of study	Spatial Development						
Date of commencement of studies	October 2022	Academic year of realisation of subject			2023/2024		
Education level	first-cycle studies	Subject group					
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			Polish		
Semester of study	4	ECTS credits			1.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Department of Urban Design and Regional Planning -> Faculty of Architecture						
Name and surname of lecturer (lecturers)	Subject supervisor	prof. dr hab. inż. arch. Piotr Lorens					
	Teachers	dr inż. arch. Gabriela Rembarz					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	15.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM		
	Number of study hours	15	0.0	0.0	15		
Subject objectives	The subject is an introduction to the problematic of the public space and urban landscape planning in the context of the development of urban technical infrastructure. The discussed content is directly related to the possibility of practical application on the design subject.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K6_K01] critically evaluates the received content; Recognizes the importance of knowledge in solving cognitive and practical problems; it reflects on the ethical, scientific and social aspects related to the urban planner and planner's work	the student learns the valorization of urban space in terms of the quality of public space as a main component of the urban landscape.			[SK5] Assessment of ability to solve problems that arise in practice		
	[K6_U07] evaluates the usefulness of standard methods and tools used in planning and management of spatial development and is able to select and apply the most appropriate ones	the student learns to understand the principles of integrated planning in the context of planning urban public space and technical infrastructure			[SU1] Assessment of task fulfilment		
	[K6_W02] has basic knowledge in the fields of science and scientific disciplines, relevant to spatial management, including history and theory of architecture, construction and related engineering industries	has basic knowledge in the fields of science and scientific disciplines, relevant to spatial management, including history and theory of architecture, construction and related engineering industries			[SW1] Assessment of factual knowledge		

Subject contents	<p>1. public space in a housing estate: street, parking lot, underground garage and entry location,</p> <p>2. city-wide system of public space and its critical points at the interface with urban technical infrastructure systems,</p> <p>3. the importance of selected aspects of technical infrastructure for building the city's image</p> <p>4. urban landscape in the context of integrated, interdisciplinary planning of public space</p> <p>5. ways of examining the scope of the necessary analysis of functional and spatial conditions in the design that takes into account the issues of the quality of public space</p>											
Prerequisites and co-requisites												
Assessment methods and criteria	<table border="1"> <thead> <tr> <th data-bbox="454 591 794 622">Subject passing criteria</th> <th data-bbox="798 591 1137 622">Passing threshold</th> <th data-bbox="1141 591 1482 622">Percentage of the final grade</th> </tr> </thead> <tbody> <tr> <td data-bbox="454 627 794 658">poster presentation</td> <td data-bbox="798 627 1137 658">60.0%</td> <td data-bbox="1141 627 1482 658">70.0%</td> </tr> <tr> <td data-bbox="454 663 794 689">study tour raport</td> <td data-bbox="798 663 1137 689">60.0%</td> <td data-bbox="1141 663 1482 689">30.0%</td> </tr> </tbody> </table>			Subject passing criteria	Passing threshold	Percentage of the final grade	poster presentation	60.0%	70.0%	study tour raport	60.0%	30.0%
Subject passing criteria	Passing threshold	Percentage of the final grade										
poster presentation	60.0%	70.0%										
study tour raport	60.0%	30.0%

Example issues/ example questions/ tasks being completed	<p>1. explain how do you understand the issues of integrated planning in the context of building the quality of public space?</p> <p>2. List examples of successful solutions for obtaining high-quality public space in relation to technical infrastructure?</p> <p>3. How does modern public space planning improve safety in the city?</p> <p>4. City image and the issues of technical infrastructure and public space?</p> <p>5. How do you understand the concept of urban landscape and its relation to the planning of technical infrastructure in the city?</p> <p>6. Illustrate the solutions of your urban design concept with the help of modern examples of good practice.</p>											
Work placement	Not applicable
