0.1: /	English in panetochnology DC 00040217							
Subject name and code	English in nanotechnology, PG_00049317							
Field of study	Nanotechnology							
Date of commencement of studies	February 2025		Academic year of realisation of subject			2024/2025		
Education level	second-cycle studies		Subject group			Obligatory subject group in the field of study		
Mode of study	Full-time studies		Mode of delivery			at the university		
Year of study	1		Language of instruction			English		
Semester of study	1		ECTS credits			2.0		
Learning profile	general academic profile		Assessment form			assessment		
Conducting unit	Institute of Nanotechnology and Materials Engineering -> Faculty of Applied Physics and Mathematics							hematics
Name and surname	Subject supervisor							
of lecturer (lecturers)	Teachers

Learning activity and number of study hours	Learning activity	Participation in classes include plan		Participation i consultation h		Self-study		SUM
	Number of study hours	30		2.0				50
Subject objectives	The aim of the course is to familiarize students with the basics of English terminology used in nanotechnology and material science.							
Learning outcomes	Course outcome Subject outcome Method of verificat					erification		
	[K7_W81] has knowledge of complex grammatical structures and diverse lexical resources needed to communicate in foreign language in terms of general and specialist language related to field of study		The student communicates in the general and specialist English language, that is consistent with his / her field of study.			[SW1] Assessment of factual knowledge [SW3] Assessment of knowledge contained in written work and projects		
	[K7_U81] is able to communicate with ease in foreign language at B2+ level of the Common European Framework of Reference for Languages (CEFR) in everyday life, in academic and professional environments		the student has a good command of the English language.			[SU1] Assessment of task fulfilment		
	[K7_K81] is able to cooperate in international team at her/his own university, during work placement and during study abroad		The student cooperates in international teams at the university and abroad.			[SK1] Assessment of group work skills		
Subject contents	bject contents Laboratory and measurement equipment. English terminology in solid state physics and chemistry and nanotechnology Nomenclature used in materials science and engineering.							
Prerequisites and co-requisites	Good command of spoken and written English.
