

Subject card

Subject name and code	Internet Technology in Infosystems, PG_00048675								
Field of study	Electronics and Telecommunications								
Date of commencement of studies	February 2025		Academic year of realisation of subject			2025/2026			
Education level	second-cycle studies		Subject group			Optional subject group Specialty subject group Subject group related to scientific research in the field of study			
Mode of study	Full-time studies		Mode of delivery			at the university			
Year of study	1		Language of instruction			Polish			
Semester of study	2		ECTS credits			1.0			
Learning profile	general academic profile		Assessment form			assessment			
Conducting unit	Department of Metrol	lectronics -> Fa	ectronics -> Faculty of Electronics, Telecommunications and Inform						
Name and surname of lecturer (lecturers)	Subject supervisor dr inż. Arkadiusz Szewczyk								
	Teachers dr inż. Arkadiusz Szewczyk								
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Projec	t	Seminar	SUM	
	Number of study hours	15.0	0.0	0.0 0.0			0.0	15	
	E-learning hours included: 0.0								
Learning activity and number of study hours	Learning activity	Participation i classes include plan		Participation in consultation hours		Self-study		SUM	
	Number of study hours	15		2.0		8.0		25	
Subject objectives	Familiarize students with issues relating to the use of Internet technologies that can be implemented in infosystem. Familiarize students with languages and tools for creating websites. Familiarize students with transmission and application protocols.								
Learning outcomes	Course outcome		Subject outcome			Method of verification			
	[K7_W04] knows and understands, to an increased extent, the principles, methods and techniques of programming and the principles of computer software development or programming devices or controllers using microprocessors or other elements or programmable devices specific to the field of study, and organization of work of systems using computers or such devices		Student knows the principles of programming of web applications and pages. Student knows			[SW1] Assessment of factual knowledge [SW2] Assessment of knowledge contained in presentation			
	[K7_W03] knows and understands, to an increased extent, the construction and operating principles of components and systems related to the field of study, including theories, methods and complex relationships between them and selected specific issues - appropriate for the curriculum		knows and understands in greater depth the principles of using communication and application protocols as well as components of websites and internet applications			[SW1] Assessment of factual knowledge			

Data wygenerowania: 28.10.2024 14:13 Strona 1 z 2

Subject contents	1. Itroduction to the lecture 2. Architecture of infosystems using Internet network 3. Application of internet technology in infosystems 4. Designing of static WWW documents aimed at measurement visualiza-tion using HTML 5. Designing of dynamic WWW documents aimed at measurement visu-alization using JavaScript 6. Designing of WWW measurement applications using PHP 7. SQL database in measurement applications 8. ActiveX components designing for internet clients 9. Application of the SOCKET interface 10. Application of internet protocols: TCP, UDP 11. Application of internet protocols: FTP, HTTP 12. Application of internet protocols: POP3, SMTP and IMAP 13. Special measurement protocols design for infosystems 14. Methodology of design of infosystems with using internet technology 15. Designing of infosystems with LabView software 16. Examples of infosystems based on internet technology part I 17. Examples of infosystems based on internet technology part II						
Prerequisites and co-requisites	No requirements						
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade				
	Written exam	50.0%	100.0%				
Recommended reading	Basic literature	Elizabeth Castro, "Po prostu HTML, XHTML i CSS", Helion 2008 Wiesław Tłaczała, "Środowisko LabVIEW w eksperymencie wspomaganym komputerowo", WN-T 2002					
	Supplementary literature	No requirements					
	eResources addresses	Adresy na platformie eNauczanie:					
Example issues/ example questions/ tasks being completed							
Work placement	Not applicable						

Document generated electronically. Does not require a seal or signature.
