

## Subject card

Subject name and code	Concurrent Programming in Linux - I, PG_00048383						
Field of study	Electronics and Telecommunications						
Date of commencement of studies	February 2025	Academic year of realisation of subject			2025/2026		
Education level	second-cycle studies	Subject group			Optional subject group Specialty subject group Subject group related to scientific research in the field of study		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	1	Language of instruction			Polish		
Semester of study	2	ECTS credits			1.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Department of Marine Electronic Systems -> Faculty of Electronics, Telecommunications and Informatics						
Name and surname of lecturer (lecturers)	Subject supervisor	dr hab. inż. Iwona Kochańska					
	Teachers	dr hab. inż. Iwona Kochańska					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study		SUM
	Number of study hours	15	2.0		8.0		25
Subject objectives	The aim of the course is to provide knowledge about methods and techniques of concurrent programming in linux operating system.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K7_W04] knows and understands, to an increased extent, the principles, methods and techniques of programming and the principles of computer software development or programming devices or controllers using microprocessors or other elements or programmable devices specific to the field of study, and organization of work of systems using computers or such devices	The student knows and understands in advanced method synchronization and scheduling processes and threads in concurrent programs working in systems built into the system Linux operating system.			[SW1] Assessment of factual knowledge		
	[K7_W03] knows and understands, to an increased extent, the construction and operating principles of components and systems related to the field of study, including theories, methods and complex relationships between them and selected specific issues - appropriate for the curriculum	The student knows and understands in advanced rule programming methods and techniques concurrent in the system Linux operating system			[SW1] Assessment of factual knowledge		

Subject contents	Organizational matters: credit rules, consultations, literature Basic concepts of concurrent programming Classic problems of concurrent programming Processes on the system on Linux Signals and links Programs in the kernel space Time management - system clocks and counters Parallel work mechanisms semaphores mutexes Conditional variables Monitors Message queues algorithms Correctness of concurrent programs and its verification								
Prerequisites and co-requisites	The basics of programming Architecture of Linux operating system								
Assessment methods and criteria	<table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 40%;">Subject passing criteria</th> <th style="width: 30%;">Passing threshold</th> <th style="width: 30%;">Percentage of the final grade</th> </tr> </thead> <tbody> <tr> <td>written test</td> <td>50.0%</td> <td>100.0%</td> </tr> </tbody> </table>			Subject passing criteria	Passing threshold	Percentage of the final grade	written test	50.0%	100.0%
	Subject passing criteria	Passing threshold	Percentage of the final grade						
written test	50.0%	100.0%							
Recommended reading	Basic literature	R. Love, Linux System Programming: Talking Directly to the Kernel and C Library 2nd Edition, O'Reilly							
	Supplementary literature	J. Corbet, A. Rubini, G. Kroah-Hartman, „Linux Device Drivers, Third Edition”, O'Reilly							
	eResources addresses	Adresy na platformie eNauczenie:							
Example issues/ example questions/ tasks being completed									
Work placement	Not applicable
