

Subject card

Subject name and code	Diploma Project, PG_00063545						
Field of study	Architecture						
Date of commencement of studies	October 2024		Academic year of realisation of subject		2025/2026		
Education level	second-cycle studies		Subject group		Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	2		Language of instruction		Polish		
Semester of study	3		ECTS credits		15.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Faculty Of Architecture -> Wydziały Politechniki Gdańskiej						
Name and surname of lecturer (lecturers)	Subject supervisor						
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	90.0	0.0	90
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	90		45.0		240.0	375
Subject objectives	Defining and solving spatial problem with a high level of complexity.						
	Development of full conceptual design that solves indicated problem.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K7_W06] knows and understands the nature of the architectural profession and its role in society, and the principles of professional presentation of architectural and urban concepts		knows and understands the nature of the architectural profession and its role in society, and the principles of professional presentation of architectural and urban concepts		[SW3] Assessment of knowledge contained in written work and projects		
	[K7_U04] is able to use analytical methods to formulate and solve project tasks, present the theoretical background and justification of the presented solutions in the form of a scientific study		is able to use analytical methods to formulate and solve project tasks, present the theoretical background and justification of the presented solutions in the form of a scientific study		[SU5] Assessment of ability to present the results of task		
	[K7_U02] is able to use interdisciplinary knowledge and skills acquired during studies to design a complex architectural object or urban complex that meets the aesthetic and technical requirements, creating and transforming space and giving it new values		is able to use interdisciplinary knowledge and skills acquired during studies to design a complex architectural object or urban complex that meets the aesthetic and technical requirements, creating and transforming space and giving it new values		[SU1] Assessment of task fulfilment		
	[K7_U01] is able to use the experience gained during studies to make a critical analysis of the conditions and formulate conclusions for design in a complicated, interdisciplinary context		is able to use the experience gained during studies to make a critical analysis of the conditions and formulate conclusions for design in a complicated, interdisciplinary context		[SU3] Assessment of ability to use knowledge gained from the subject		

Subject contents	DIPLOMA DESIGN II: Concept, Idea of design, graphic scheme, plans, study with model, urbanism, architecture, construction design and installation, material issues, final phase of the project, graphics, concept boards.		
	PROJECT SCOPE: Descriptive part: problem study, 20-40 pages of text, description of design conception. Design part: 8 - 10 drawing sheets of 100/70cm (including min.2 boards of urban issues for architectural diplomas; min 2 boards of architectural issues for planning diplomas), a model or visualization.		
Prerequisites and co-requisites	passing the module: Diploma design I		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	project	100.0%	80.0%
	Description of design concept	100.0%	20.0%
Recommended reading	Basic literature	Selected individually by student's supervisor depending on the thesis specifics.	
	Supplementary literature	Selected individually by student's supervisor depending on the thesis specifics.	
	eResources addresses	Adresy na platformie eNauczanie:	
Example issues/ example questions/ tasks being completed	Housing development issues and residential architecture in the center on the outskirts of the city.		
	A and B class Office Buildings,		
	Public buildings (museums, cinemas, theaters)		
	Religious Architecture		
	Revitalization of the city space		
	Development of public space		
	Study of the location of multifunctional buildings		
Work placement	Not applicable
