

Subject card

Subject name and code	BSc Diploma Seminar I, PG_00059191						
Field of study	Informatics						
Date of commencement of studies	October 2024		Academic year of realisation of subject		2026/2027		
Education level	first-cycle studies		Subject group		Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	3		Language of instruction		Polish		
Semester of study	6		ECTS credits		1.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department of Computer Architecture -> Faculty of Electronics, Telecommunications and Informatics						
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. Jarosław Kuchta				
	Teachers		dr inż. Jarosław Kuchta				
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	15.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		1.0		9.0	25
Subject objectives	The aim of the subject is to get to know, master and practice the presentation of achievements, develop the skills of technical discussion, prepare for the writing and editing of the thesis and prepare for the diploma exam.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K6_W11] knows and understands to an advanced degree the general principles of the creation and development of economic entities, forms of individual entrepreneurship and conducting enterprises and the fundamental dilemmas of modern civilization, as well as the basic economic, legal and other conditions of various types of activities related to the field of study, including the basic concepts and principles of industrial property protection and copyright law	Knows and understands the importance of his/her engineering work in the context of the needs of the economy.	[SW2] Assessment of knowledge contained in presentation
	[K6_K02] is ready to critically assess possessed knowledge and acknowledge the importance of knowledge in solving cognitive and practical problems	Can present the progress of work and answer questions from the audience.	[SK4] Assessment of communication skills, including language correctness
	[K6_U10] can individually plan their own lifelong education, also by means of advanced information and communication technologies (ICT), and communicate with people from their environment, firmly justify their point of view, participate in debates, present, assess and discuss different opinions and points of view, as well as use specialist terminology related to the field of study in communication	Can present the progress of work using modern multimedia techniques and answer questions from the audience.	[SU5] Assessment of ability to present the results of task
	[K6_K01] is ready to cultivate and disseminate models of proper behaviour in and outside the work environment; make independent decisions; critically evaluate actions of their own, teams they lead and organisations they are part of; take responsibility for results of these actions; responsibly perform professional roles, including: n - observing rules of professional ethics and require it from others, n - care for the achievements and traditions of the profession	Is diligent in his engineering work.	[SK2] Assessment of progress of work [SK5] Assessment of ability to solve problems that arise in practice
Subject contents	Principles of the diploma process. Outline and schedule of the diploma project. The goal of the diploma thesis. Substantive content of the work and requirements for its structure (title page, statement, summaries in Polish / English, table of contents, list of abbreviations and symbols, introduction, division of work into chapters / subchapters, summary of work - final conclusions, list of references, list of: tables, drawings, attachments). Editorial of technical text. Searching, using and quoting literature. Plagiarism and anti-plagiarism analysis (JSA). The structure of the presentation of the diploma project. Technical discussion. Discussing additional issues specific to the CES profile.		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Activity	0.0%	50.0%
	Presentation 1	0.0%	50.0%
