

## Subject card

Subject name and code	.NET Programming Languages, PG_00048004							
Field of study	Informatics							
Date of commencement of studies	October 2024		Academic year of realisation of subject		2027/2028			
Education level	first-cycle studies		Subject group		Optional subject group Subject group related to scientific research in the field of study			
Mode of study	Full-time studies		Mode of delivery		at the university			
Year of study	4		Language of instruction		Polish			
Semester of study	7		ECTS credits		2.0			
Learning profile	general academic profile		Assessment form		assessment			
Conducting unit	Department of Algorithms and Systems Modelling -> Faculty of Electronics, Telecommunications and Informatics							
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. Krzysztof Manuszewski					
	Teachers	dr inż. Krzysztof Manuszewski						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Projec	t	Seminar	SUM
	Number of study hours	15.0	0.0	15.0	0.0		0.0	30
	E-learning hours included: 0.0							
Learning activity and number of study hours	Learning activity	tivity Participation in classes include plan				Self-study		SUM
	Number of study hours	30		2.0		18.0		50
Subject objectives	To improve the practice of C# and other programming languages available at .NET platform.							

Data wygenerowania: 22.11.2024 01:33 Strona 1 z 4

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K6_W10] knows and understands to an advanced degree the basic processes occurring in the life cycle of equipment, objects and technical systems, as well as methods of supporting processes and functions, specific to the field of study	The student understands issues related to code maintenance and the specifics of the .NET platform	[SW1] Assessment of factual knowledge
	[K6_W03] knows and understands, to an advanced extent, the construction and operating principles of components and systems related to the field of study, including theories, methods and complex relationships between them and selected specific issues - appropriate for the curriculum	Student understand the structure of .NET components and information exchange between components	[SW1] Assessment of factual knowledge
	[K6_U04] can apply knowledge of programming methods and techniques as well as select and apply appropriate programming methods and tools in computer software development or programming devices or controllers using microprocessors or programmable elements or systems specific to the field of study	Student is able to use VS for purpose the implementation of .NET applications that contains GUI.	[SU3] Assessment of ability to use knowledge gained from the subject
	[K6_W04] knows and understands, to an advanced extent, the principles, methods and techniques of programming and the principles of computer software development or programming devices or controllers using microprocessors or programmable elements or systems specific to the field of study, and organisation of systems using computers or such devices	Student is able to create applications in C#, VB. Student is able to mix the managed and unmanaged code in one application. Student utilises the abilities of CODE DOM	[SW1] Assessment of factual knowledge

Subject contents	1. Rules of assessment
Subject contents	T. Talos of accounting
	2NET programming languages
	3. C#"s basic syntax
	4. CLR,C# - types and statements
	5. CLR, C# - reference types and value types
	6. Nullable types
	7. CLR,C# - classes and structs; properties and its modifiers
	8. CLR,C# - container is a classes and indexers
	9. CLR,C# - jagged arrays
	10. CLR,C# - class and method attributes
	11. C# - exceptions
	12. CLR, C# - events and delegates
	13. CLR,C# - generics
	14. C# - partial classes
	15. C# - plugins support
	16. LINQ
	17. Anonymous types
	18. Lambda expressions
	19. VB.NET basic syntax
	20. Common .NET elements for VB
	21. C++ Managed extension
	22. C++ Managed and unmanaged code
	23. Common .NET elements for C++
	24. Managed opages for ANSI C++
	25. Using unmanaged code with VB/C#

Data wygenerowania: 22.11.2024 01:33 Strona 3 z 4

	26. Jscript/VBScript Elements					
	27. Test					
Prerequisites and co-requisites	Object oriented programming.					
Assessment methods	Subject passing criteria	Passing threshold	Percentage of the final grade			
and criteria	Practical exercise	50.0%	50.0%			
	Midterm colloquium	50.0%	50.0%			
Recommended reading	Basic literature	C# in Depth / Jon Skeet, Manning Publications  Expert F# 4.0 / Don Syme, Adam Granicz, Antonio Cisternino, Apress				
	Supplementary literature  Essential C# 8.0, Mark Michaelis, Addison-Wesley  C# 8.0 in a Nutshell, Joseph Albahari, Eric Johannsen, C		·			
		C# 9 with .NET, 10th edition, Apress 2021				
		LEARNING F# - autorami są osoby ze Stack Overflow  Expert .NET 2.0 IL Assembler, Serge Lidin, Apress				
	eResources addresses	ie:				
Example issues/ example questions/ tasks being completed						
Work placement	Not applicable
