

## 。 GDAŃSK UNIVERSITY OF TECHNOLOGY

## Subject card

Subject name and code	Software Project Management, PG_00048276							
Field of study	Informatics							
Date of commencement of studies	February 2025		Academic year of realisation of subject		2024/2025			
Education level	second-cycle studies		Subject group		Optional subject group Specialty subject group Subject group related to scientific research in the field of study			
Mode of study	Full-time studies		Mode of delivery		at the university			
Year of study	1		Language of instruction		Polish			
Semester of study	1		ECTS credits		2.0			
Learning profile	general academic profile		Assessment form		exam			
Conducting unit	Department of Software Engineering -> Faculty of Electronics, Telecommunications and Informatics							
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. Jakub Miler					
	Teachers	dr inż. Jakub Miler						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Projec	Project Seminar		SUM
	Number of study hours	15.0	0.0	0.0	15.0	0.0		30
	E-learning hours inclu	uded: 0.0				-		
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study		SUM
	Number of study hours	30		4.0		16.0		50
Subject objectives	<ul> <li>To understand the needs and goals of software project management</li> <li>To learn selected areas of project management based on PRINCE2 and PMI's PMBoK methodologies</li> <li>To learn techniques and tools of effective project management</li> </ul>							

Learning outcomes Course outcome		Subject outcome	Method of verification		
	[K7_W10] knows and understands, to an increased extent, the basic processes occurring in the life cycle of equipment, objects and technical systems, as well as methods of supporting processes and functions, specific to the field of study	Student describes the project management methodologies Student lists the areas of project management	[SW1] Assessment of factual knowledge		
	[K7_W11] knows and understands, to an increased extent, the general principles of creation and development of forms of individual entrepreneurship and the economic, legal and other conditions of various types of activities related to the awarded qualification, including the principles of protection of industrial property and copyright law	Student includes the market analysis in the project business case Student analyzes project data and makes managerial decisions	[SW3] Assessment of knowledge contained in written work and projects		
	[K7_W101] is able to make an in- depth identification of key objects and phenomena related to the field of study, as well as theories that describe them and applicable analytical and design methods	Student develops the business case and software project feasibility study Student builds the project schedule	[SW3] Assessment of knowledge contained in written work and projects		
	[K7_K02] is ready to provide critical evaluation of received content and to acknowledge the importance of knowledge in solving cognitive and practical problems	Student applies systematic approach to the project management Student evaluates the quality of team's and their own work	[SK3] Assessment of ability to organize work [SK1] Assessment of group work skills		
Subject contents	Main topics:				
	<ol> <li>Introduction</li> <li>Project context</li> <li>Project management methodologies</li> <li>Areas of software project management</li> <li>Project business case</li> <li>Feasibility study</li> <li>Risk management - terms &amp; process</li> <li>Risk management - risk assessment and mitigation</li> <li>Human resources management - project manager</li> <li>Human resources management - motivation and delegation</li> <li>Human resources management - team building</li> <li>Stakeholder communication - identification and analysis</li> <li>Stakeholder communication - planning</li> <li>Planning - overall project plan</li> <li>Scheduling - identification and estimation of tasks</li> <li>Scheduling - schedule desing</li> <li>Scheduling - schedule optimization</li> <li>Additional topics:</li> <li>Project Management Office</li> <li>Project Management Office</li> <li>Project portfolio management</li> </ol>				
Prerequisites and co-requisites					
Assessment methods	Subject passing criteria	Passing threshold	Percentage of the final grade		
and criteria	Project	51.0%	50.0%		
	Written exam	51.0%	50.0%
