

Subject card

Subject name and code	Software Project Organization, PG_00063884						
Field of study	Informatics						
Date of commencement of studies	October 2024	Academic year of realisation of subject			2026/2027		
Education level	first-cycle studies	Subject group			Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	3	Language of instruction			Polish		
Semester of study	5	ECTS credits			2.0		
Learning profile	general academic profile	Assessment form			exam		
Conducting unit	Department of Software Engineering -> Faculty of Electronics, Telecommunications and Informatics						
Name and surname of lecturer (lecturers)	Subject supervisor	dr inż. Jakub Miler					
	Teachers	dr inż. Jakub Miler					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	15.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		2.0		18.0	50
Subject objectives	To learn the organization and course of a software project based on various software development methodologies: agile Scrum, XP, Kanban, Nexus, SAFe, DevOps, and disciplined Rational Unified Process. To be able to select, adapt and combine methodologies and practices.						

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K6_W10] knows and understands to an advanced degree the basic processes occurring in the life cycle of equipment, objects and technical systems, as well as methods of supporting processes and functions, specific to the field of study	Student knows the methodologies of implementing IT projects in an agile and disciplined manner. Student understands the advantages and limitations of software development methodologies.	[SW3] Assessment of knowledge contained in written work and projects [SW1] Assessment of factual knowledge
	[K6_U07] can apply methods of process and function support, specific to the field of study	Student realizuje projekt zgodnie z wybraną metodyką zwinną lub zdyscyplinowaną Student uses the agile documentation techniques to specify software and development plans Student uses the tools for methodologies	[SU4] Assessment of ability to use methods and tools [SU1] Assessment of task fulfilment
	[K6_U03] can design, according to required specifications, and make a simple device, facility, system or carry out a process, specific to the field of study, using suitable methods, techniques, tools and materials, following engineering standards and norms, applying technologies specific to the field of study and experience gained in the professional engineering environment	Student runs the project following the selected agile or disciplined methodology Student develops the backlogs and plans following the methodologies	[SU4] Assessment of ability to use methods and tools [SU1] Assessment of task fulfilment
[K6_U11] can plan and organise individual and team work	Student plans the project following a selected agile or disciplined methodology Student organizes the project infrastructure and the team work	[SU4] Assessment of ability to use methods and tools [SU1] Assessment of task fulfilment	
Subject contents	<ol style="list-style-type: none"> 1. Introduction to the subject 2. Introduction to methodologies, classifications, challenges 3. Project infrastructure - people, communication, documentation, tools 4. Examples of projects, their course and work organization 5. Agile mindset 6. Scrum method - introduction, values, roles 7. Scrum method - artifacts 8. Scrum method - events 9. XP method 10. Kanban method 11. Rational Unified Process methodology 12. Scrum of Scrums, Nexus 13. DevOps 14. SAFe framework 15. Selection of methodology for the project 		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Written exam	51.0%	40.0%
	Project	51.0%	60.0%
