

## Subject card

Subject name and code	, PG_00061830						
Field of study	Management and Production Engineering						
Date of commencement of studies	February 2024	Academic year of realisation of subject			2024/2025		
Education level	second-cycle studies	Subject group					
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			Polish		
Semester of study	3	ECTS credits			4.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Department of Materials Engineering and Bonding -> Faculty of Mechanical Engineering and Ship Technology						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. inż. Dariusz Fydrych				
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	0.0	15.0	0.0	0.0	45
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	45		0.0		0.0	45
Subject objectives	The aim of the course is to familiarize students with the issues of weldability of materials.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K7_U01] can obtain information from literature, databases and others sources, also in English or another foreign language recognized as the language of international communication in a given engineering discipline; is able to integrate the obtained information, interpret it, as well as draw conclusions and formulate and justify opinions.	The student is able to analyze literature data			[SU3] Assessment of ability to use knowledge gained from the subject		
	[K7_K01] is aware of the need to expand knowledge and verify the methods of solving problems by consulting experts	The student is able to search for literature data.			[SK4] Assessment of communication skills, including language correctness		
	[K7_K02] is aware of the importance and understanding of non-technical aspects and effects of engineering activities, including its impact on the environment, and the related responsibility for decisions made demonstrates knowledge of actions to reduce risk and anticipate the social impact of engineering and manufacturing activities	Student is able to solve engineering problems			[SK5] Assessment of ability to solve problems that arise in practice		

Subject contents	<p>Definition of weldability. Thermal processes in welding. Thermal welding cycle. Cooling time <math>t_{8/5}</math>. Welding cracks. Methods of evaluation of weldability. Weldability of non-alloy, low alloy and high alloy steels. Weldability of aluminium alloys. Weldability of copper alloys. Weldability of titanium alloys. Weldability of plastics.</p> <p>Laboratory: Determining the preheating temperature. Measurements of the diffusible hydrogen amount. Cold cracking. Hot cracking. Assessment of the weldability of alloy steels.</p>		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Written test	60.0%	60.0%
	Written test	60.0%	40.0%
Recommended reading	Basic literature	<p>Butnicki S.: Spawalność i kruchość stali. WNT Warszawa 1975.</p> <p>Tasak E.: Spawalność stali. Fotobit Kraków 2002.</p> <p>Węgrzyn J.: Fizyka i metalurgia Spawania. Politechnika Śląska 1990.</p>	
	Supplementary literature	<p>Praca zbiorowa. Poradnik inżyniera. Spawalnictwo. Tom 1. WNT Warszawa 2003.</p> <p>Jakubiec M., Lesiński K., Czajkowski H.: Technologia konstrukcji spawanych. WNT Warszawa 1987.</p> <p>Pilarczyk J., Pilarczyk J.: Spawanie i napawanie elektryczne metali. Wydawnictwo Śląsk Katowice 1996.</p>	
	eResources addresses	Adresy na platformie eNauczenie:	
Example issues/ example questions/ tasks being completed	<p>Describe weldability of heat resistant steel.</p> <p>Describe weldability of stainless steel.</p> <p>Describe weldability of aluminium alloys.</p>		
Work placement	Not applicable
