

## Subject card

Subject name and code	Organization and Management of Technical Support in Healthcare, PG_00064114						
Field of study	Mechanical and Medical Engineering						
Date of commencement of studies	October 2024		Academic year of realisation of subject		2024/2025		
Education level	first-cycle studies		Subject group		Obligatory subject group in the field of study		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	1		Language of instruction		Polish		
Semester of study	1		ECTS credits		2.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Institute of Mechanics and Machine Design -> Faculty of Mechanical Engineering and Ship Technology						
Name and surname of lecturer (lecturers)	Subject supervisor		prof. dr hab. lek. Janusz Siebert				
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	30.0	0.0	0.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		1.0		19.0	50
Subject objectives	<p>Student knows principles in ambulatory and hospital medical practice</p> <p>Student knows the diagnostic and theraputic procedures.</p> <p>Student has the information about the water, power supplementation in abulatory and hospital practice.</p> <p>Student has the informations of epidemiological procedures.</p>						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_K02] is aware of importance of professional dealing and to fulfill ethics obligations, he/she understands other (nontechnical) abilities of mechanical engineering professional, their influence on the society and security of environment, he/she is aware of importance of social cooperation		Student is aware of the importance of observing the principles of professional ethics and is able to work in a group.		[SK5] Assessment of ability to solve problems that arise in practice [SK1] Assessment of group work skills		
	[K6_U05] has skills to work in industry and follow the rules of safety regulations, he/she is able to analyze basic economics problems to delineate the direction of solution by using engineering methods		Student can move around in health care facilities. Knows the economic fundamentals of engineering activities.		[SU3] Assessment of ability to use knowledge gained from the subject		
Subject contents	Amblatory and hospital practice organizations						
Prerequisites and co-requisites							
Assessment methods and criteria	Subject passing criteria		Passing threshold		Percentage of the final grade		
	colloquium		60.0%		100.0%		
Recommended reading	Basic literature		Information from the class				

	Supplementary literature	Ustawa o POZ
	eResources addresses	Adresy na platformie eNauczanie:
Example issues/ example questions/ tasks being completed		
Work placement	Not applicable	

Document generated electronically. Does not require a seal or signature.
