

Subject card

Subject name and code	Study visits - design internship, PG_00049163						
Field of study	Spatial Development						
Date of commencement of studies	October 2024	Academic year of realisation of subject			2024/2025		
Education level	first-cycle studies	Subject group			Optional subject group		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	1	Language of instruction			Polish		
Semester of study	2	ECTS credits			1.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Department of Urban Design and Regional Planning -> Faculty of Architecture						
Name and surname of lecturer (lecturers)	Subject supervisor	dr inż. arch. Piotr Smolnicki					
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	0.0	0
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study		SUM
	Number of study hours	0	0.0		25.0		25
Subject objectives	The aim of the course is to prepare an urban inventory of the selected urban area of the city. Students will learn about the methods and techniques in urban inventory planning practice as well as they will be better prepared for practical design.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K6_U08] performs an urban project with a basic degree of complexity, in accordance with the set specification, applicable rules, legal provisions and taking into account economic factors, and prepares an outline of its implementation strategy; prepares elements of planning documentation, cooperating with industry specialists	as part of the internship, the student prepares elements of planning documentation			[SU1] Assessment of task fulfilment		
	[K6_K81] is able to cooperate in international team	as part of the internship, the student is able to cooperate in a team			[SK1] Assessment of group work skills		
Subject contents	<p>Design practice is aimed at performing a frontage study together with a proposal for the principles of shaping a new cubature. Students work in groups of 2-6 people, the size of which depends on the area. As a part of the internship, students: - make photographic documentation of the frontage along with a full drawing analysis according to the pattern received from the teacher and put forward a proposal of the rules for shaping new cubature in a given context.</p> <p>Area designated in consultation with a tutor (its size, scale, etc.). It may be related to the area carried out as part of the first practice.</p>						
Prerequisites and co-requisites							
Assessment methods and criteria	Subject passing criteria	Passing threshold			Percentage of the final grade		
	compatibility with an urban inventory card	70.0%			20.0%		
	substantive value of the task	70.0%			80.0%
