| | Expanding the knowledge and deepening the skills of using advanced rendering engines simulating the bysical features of the real world in order to present designed architectural objects. Gaining knowledge about the current directions of development of tools for advanced modeling of architectural objects (parametric modeling, animation, BIM). | | | | | | | | |
| Learning outcomes | Course outcome | | Subject outcome | | | Method of verification | | | |
| | [K6_U03] is able to prepare a graphic, written and oral presentation of your own design concepts in the field of architecture and urban planning, meeting the requirements of a professional record appropriate for architectural and urban design | | The student knows the specifics and possibilities of various computer tools and is able to choose the appropriate digital tool for the project task (drawing, modeling, documentation development). Understands the role of architectural visualization in communicating the design idea. | | | [SU1] Assessment of task fulfilment [SU4] Assessment of ability to use methods and tools | | | |
| | [K6_U04] is able to use analytical methods to formulate and solve project tasks | | The student is able to use the possibilities of processing and obtaining design information using digital tools for 3D geometry modeling and visualization. | | | [SU2] Assessment of ability to analyse information [SU1] Assessment of task fulfilment | | | |
| Subject contents | 1. 3D geometry modeling in AutoCAD v 2019 - tools for modeling objects belonging to Solid, Surface (Nurbs) and Mesh type.2. Creating a project presentation using advanced rendering and a viewports layout AutoCAD v 20193. The use of modeling and visualization skills for the task carried out on the subject Architectural Design sem 2 | | | | | | | | |

| Prerequisites and co-requisites | Ability to prepare 2D architectural drawings | | | | | | |
|---|--|--|-------------------------------|--|--|--|--|
| | Ability to build models of architectural objects with simple geometry Ability to post-process raster images | | | | | | |
