

## Subject card

Subject name and code	Rural project , PG_00061488						
Field of study	Architecture						
Date of commencement of studies	October 2024		Academic year of realisation of subject		2025/2026		
Education level	first-cycle studies		Subject group		Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	2		Language of instruction		Polish		
Semester of study	3		ECTS credits		3.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department Of Environmental Design -> Faculty Of Architecture -> Wydziały Politechniki Gdańskiej						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. inż. arch. Anna Górka				
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	40.0	0.0	40
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	40		6.0		29.0	75
Subject objectives	The aim of the course is the formation of basic skills in the field of rural landscape design in term of sustainability.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_U03] is able to prepare a graphic, written and oral presentation of your own design concepts in the field of architecture and urban planning, meeting the requirements of a professional record appropriate for architectural and urban design		is able to prepare spatial development studies and interpret them to the extent necessary for designing on an urban and architectural scale;in an orderly manner, presents his own solutions in the field of rural landscape design		[SU1] Assessment of task fulfilment		
	[K6_W02] knows and understands the rules of gathering information and their interpretation as a part of project concept preparation; issues related to architecture and urban planning in the field of simple design problems solving		is able to critically analyse conditions, including the valuation of the state of land development and buildings; in an orderly manner, collects and interprets information in order to solve simple problems in rural landscape design		[SW3] Assessment of knowledge contained in written work and projects		
Subject contents	The program of classes is formed by:  - a set of pre-design analyzes in rural landscape design (studies of natural, cultural and visual resources)  - spatial development strategy of the sustainable village   - landscape design study of a selected area (using solutions that increase the resilience of the ecosystem and social environment)- presentation of the rural landscape project						
Prerequisites and co-requisites	completing rural practice						

Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
		100.0%	10.0%
		100.0%	90.0%
