| Learning outcomes  | Course outcome   | Subject outcome  | Method of verification  |  |  |  |  |
|--|--|--|---|--|--|--|--|
|  | [K6_U14] is able to analyse the operation of devices and compare the construction solutions applying usage, safety, environmental, economic and legal criteria   | The student is able to assess the threats resulting from non-compliance with copyrights and violations of industrial property rules. He is able to cooperate in a group, as well as take on the role of a creator or entrepreneur and assess the consequences of these threats in a practical and thoughtful way.  | [SU2] Assessment of ability to<br>analyse information<br>[SU1] Assessment of task<br>fulfilment                       |  |  |  |  |
|  | [K6_W15] possesses a knowledge necessary to understand the extechnical conditions of engineering activity, possesses knowledge on management, including quality management and running commercial enterprise, within the range of protection of intellectual property and patent law; knows general principles of creating and developing forms of individual entrepreneurship and basic HSE rules applicable to machine industry  | The student is able to interpret the Act on Copyright and Related Rights and Industrial Property, as well as counteract unfair competition. He has the knowledge that allows him to run his own business, taking into account good practices regarding the protection of industrial property based on the principles of healthy competition. Is able to put himself in the role of a copyright holder, both as an employer and a creator. Knows the scope of activities of consumer protection organizations (various types of inspections), is able to provide their tasks with examples. | [SW3] Assessment of knowledge contained in written work and projects [SW1] Assessment of factual knowledge            |  |  |  |  |
|  | [K6_K01] is aware of the need for complementing the knowledge throughout the whole life, is able to select proper methods of teaching and learning, critically assesses the possessed knowledge; is aware of the importance of professional conduct and following the rules of professional ethics; is able to show resourcefulness and innovation in the realisation of professional projects   | The student applies the principles of industrial property in his professional career and understands the legal and moral consequences of non-compliance with the laws.   | [SK4] Assessment of communication skills, including language correctness [SK3] Assessment of ability to organize work |  |  |  |  |
| Subject contents   | Intellectual property issues in legal doctrine. Basic legal concepts in the field of intellectual property protection. Copyright - the subject of copyright, the scope of protection and the conditions for its application. Copyright entity. The employer as a copyright holder. Protection of scientific works. Content of copyright: personal and property rights. Fair use of works protected by copyright. Duration of copyrights and their transfer to other persons. Related rights general issues. Special protection of audiovisual works and computer programs. Industrial property law general characteristics. Inventions, utility models, industrial designs, common provisions. Inventions detailed regulation. Procedure for filing an invention, utility model and industrial design. Trademarks, geographical indications and topographies of integrated circuits introductory provisions. Structure, organization and tasks of the Patent Office. Legal basis for combating unfair competition. Office of Competition and Consumer Protection - goals, tasks, successes and failures. |  |   |  |  |  |  |
| Prerequisites and co-requisites                                | No prerequisites or additional requirements  |  |   |  |  |  |  |
| Assessment methods   | Subject passing criteria   | Passing threshold  | Percentage of the final grade   |  |  |  |  |
| and criteria   | test   | 60.0%  | 100.0%  |  |  |  |  |
| Recommended reading  | Basic literature   | Act of February 4, 1994 on copyright and related rights.  Act of 27 July 2001 on the protection of databases.  Act of June 30, 2000, Industrial Property Law.  Act of February 16, 2007 on competition and consumer protection.  |   |  |  |  |  |
