

Subject card

Subject name and code	Project Management in Logistics, PG_00060658						
Field of study	Transport and Logistics						
Date of commencement of studies	October 2024	Academic year of realisation of subject			2026/2027		
Education level	first-cycle studies	Subject group			Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	3	Language of instruction			Polish		
Semester of study	5	ECTS credits			3.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Zakład Mechaniki i Konstrukcji Morskich -> Institute of Ocean Engineering and Ship Technology -> Faculty of Mechanical Engineering and Ship Technology						
Name and surname of lecturer (lecturers)	Subject supervisor	dr Anna Dembicka					
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	30.0	0.0	45
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	45		4.0		26.0	75
Subject objectives	Learning the principles of project management. Mastering the project management methodology.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K6_K02] is able to work in a team playing various roles; is able to act in a rational and ethical way	The student knows the principles of team cooperation. He has acquired the skills to act rationally and ethically.			[SK1] Assessment of group work skills [SK3] Assessment of ability to organize work [SK5] Assessment of ability to solve problems that arise in practice		
	[K6_W08] has knowledge of the principles of sustainable development	The student has knowledge about practices supporting sustainable development goals.			[SW3] Assessment of knowledge contained in written work and projects		
	[K6_U71] is able to apply knowledge from humanistic, social, economic or legal sciences in order to solve problems	Is able to solve engineering tasks. Has knowledge of social attitudes, group work, development, and independent work. He has technological, organizational and design knowledge and knows the importance of quality. Has the skills to conduct individual stages of a business project and the principles of documenting them according to the SCRUM, PMI BOK and PRINCE 2 methods. Has the knowledge to perform comprehensive project tasks.			[SU3] Assessment of ability to use knowledge gained from the subject [SU4] Assessment of ability to use methods and tools [SU5] Assessment of ability to present the results of task		
Subject contents	The importance of the project in today's business management. Project as an element of development organization. Project definition. What does project management mean? SCRUM, PMI BOK and PRINCE2 project management methodology. Design elements and types of designs. Project organizational structure and WBS, designation of a project team - principles of creation and merging talents and skills.
