

Subject card

Subject name and code	Geodesic territorial development net, PG_00044848						
Field of study	Geodesy and Cartography						
Date of commencement of studies	October 2024		Academic year of realisation of subject		2026/2027		
Education level	first-cycle studies		Subject group		Optional subject group		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	3		Language of instruction		Polish		
Semester of study	5		ECTS credits		4.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department of Geodesy -> Faculty of Civil and Environmental Engineering						
Name and surname of lecturer (lecturers)	Subject supervisor						
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	15.0	0.0	0.0	0.0	45
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	45		8.0		47.0	100
Subject objectives	Getting to know the principles of operation of the Geodetic Record of Territorial Armaments Networks (GESUT) and the rules in force when conducting coordination meetings convened during the arrangement of the course of newly designed networks. Acquiring the ability to operate and locate the network of utilities with the help of wire detectors. Acquiring the skills to complete documentation related to the post-reconnaissance and localization inventory of SUT installations.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_W10] has elementary knowledge and understands the concepts of architecture and urban planning, construction, environmental engineering and transport necessary to carry out studies related to planning and investment service		He can prepare documentation related to delimitation and inventory of network elements utilities.				
	[K6_U02] can make basic geodetic drawings and read an architectural technical drawing		Can take measurement as well prepare documentation related to delimitation and inventory of network elements utilities - including preparation technical operations.				
Subject contents	GESUT and RUDP - structure and principle of operation, type and scope of information collected in GESUT databases. Knowledge of the type and scope of geodetic and cartographic studies related to GESUT and RUDP. Ability to edit technical documentation. Principles of reconciliation of the location of the designed utilities networks, delineation of the designed elements (principles and accuracy), as-built inventory of the land utilities networks (principles and accuracy).						
Prerequisites and co-requisites	Ability to use geodetic instruments, principles of conducting field measurements. Ability to prepare technical documentation of the performed measurement. Ability to work with basic geodetic software in the field of calculations and graphic editing of a basic map. Basic knowledge of law.						
Assessment methods and criteria	Subject passing criteria		Passing threshold		Percentage of the final grade		
			100.0%		40.0%		
			60.0%		60.0%
