

Subject card

Subject name and code	WORK PROCESSES ORGANIZATION, PG_00061454									
Field of study	Engineering Management									
Date of commencement of studies	October 2024	Academic year of realisation of subject		2025/2026						
Education level	first-cycle studies		Subject group		Obligatory subject group in the field of study	Subject group related to scientific research in the field of study				
Mode of study	Part-time studies (on-line)		Mode of delivery		at the university					
Year of study	2		Language of instruction		Polish					
Semester of study	4		ECTS credits		5.0					
Learning profile	general academic profile		Assessment form		exam					
Conducting unit	Department Of Management -> Faculty Of Management And Economics -> Wydziały Politechniki Gdańskiej									
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. Beata Basińska							
	Teachers									
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar				
	Number of study hours	16.0	0.0	16.0	0.0	0.0				
E-learning hours included: 0.0										
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		SUM				
	Number of study hours	32		7.0		86.0				
125										
Subject objectives	Analyzes and evaluates work processes in various contexts, selecting appropriate advanced methods									
Learning outcomes	Course outcome		Subject outcome			Method of verification				
	[K6_W05] integrates data from many sources to analyze complex problems of modern management		evaluates the functioning of work processes, extracting information relevant to a specific goal, analyzing them using appropriately selected methods			[SW1] Assessment of factual knowledge				
[K6_U01] analyzes and evaluates complex processes in the context of the possibility of their improvement, using various methods, including analytical and simulation		creates models that reflect the implementation of work processes in various contexts, using analytical and simulation methods			[SU4] Assessment of ability to use methods and tools					

Subject contents	<p>LECTURE</p> <ul style="list-style-type: none"> Evaluation and analysis in the organization of work processes Human-centric work systems Research and improvement of work processes Standardizing the times of work processes Evaluation and analysis of workload Predispositions of operators and performance of work Enriched work concepts Organization of shift work Organization of work loaded with monotony Valuation and qualification of work processes Selection and optimization of resources in work systems Assessment of information links and information security Shaping the spatial structure of work Design and standardization of processes in the organization Standardization of work processes <p>LABORATORY</p> <ul style="list-style-type: none"> Identification, notation and mapping of processes in VISIO Modeling the assignment of tasks and roles in processes in ADONIS Evaluation of the functionality of work systems using the 5M and 5S methods in the EXCEL program ETA and FTA techniques for examining work processes in the VISIO program Techniques of mapping work processes in EXCEL Timing and snapshot observations in EXCEL Normalization using the MTM normative technique in the STATISTICA program Analysis and simulation of workload in the ADONIS program Identification of hazards and assessment of biomechanical loads Methodology of psychometric normalization Shift work organization techniques Methods of evaluating and reducing work monotony Work requirements and assessment of the operator's predisposition Methods of job evaluation and qualification Optimization of the course and resources of work processes in the SOLVER program 															
Prerequisites and co-requisites																
Assessment methods and criteria	<table border="1"> <thead> <tr> <th data-bbox="446 911 759 961">Subject passing criteria</th><th data-bbox="759 911 1144 961">Passing threshold</th><th data-bbox="1144 911 1486 961">Percentage of the final grade</th></tr> </thead> <tbody> <tr> <td data-bbox="446 961 759 988">Exam</td><td data-bbox="759 961 1144 988">60.0%</td><td data-bbox="1144 961 1486 988">20.0%</td></tr> <tr> <td data-bbox="446 988 759 1015">Essay, presentation</td><td data-bbox="759 988 1144 1015">60.0%</td><td data-bbox="1144 988 1486 1015">30.0%</td></tr> <tr> <td data-bbox="446 1015 759 1042">Lab reports</td><td data-bbox="759 1015 1144 1042">100.0%</td><td data-bbox="1144 1015 1486 1042">30.0%</td></tr> <tr> <td data-bbox="446 1042 759 1069">Tests during the semester</td><td data-bbox="759 1042 1144 1069">60.0%</td><td data-bbox="1144 1042 1486 1069">20.0%</td></tr> </tbody> </table>	Subject passing criteria	Passing threshold	Percentage of the final grade	Exam	60.0%	20.0%	Essay, presentation	60.0%	30.0%	Lab reports	100.0%	30.0%	Tests during the semester	60.0%	20.0%
Subject passing criteria	Passing threshold	Percentage of the final grade														
Exam	60.0%	20.0%														
Essay, presentation	60.0%	30.0%														
Lab reports	100.0%	30.0%														
Tests during the semester	60.0%	20.0%
