GDAŃSK UNIVERSITY OF TECHNOLOGY

Subject card

Subject name and code	DIGITAL ECONOMY, PG_00058478
Field of study	Economics

Date of commencement of studies	October 2024	Academic year of realisation of subject	2026/2027
Education level	first-cycle studies	Subject group	Obligatory subject group in the field of study
			Subject group related to scientific research in the field of study
Mode of study	Full-time studies	Mode of delivery	at the university
Year of study	3	Language of instruction	Polish
Semester of study	6	ECTS credits	4.0
Learning profile	general academic profile	Assessment form	exam

Conducting unit	Katedra Ekonomii -> Faculty of Management and Economics

Name and surname of lecturer (lecturers)	Subject supervisor	prof. dr hab. Ewa Lechman
	Teachers	

Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	15.0	0.0	0.0	0.0	45
	E-learning hours included: 0.0						

Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM
	Number of study hours	45	10.0	45.0	100

Subject objectives	Explains fundamentals and impact of digital technologies in socio-economic systems, emphasizing their impact on economic development.

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K6_U07] uses information technologies to improve data analysis and decision-making processes	uses information tools to solve current economic problems.	[SU2] Assessment of ability to analyse information
	[K6_W06] classifies the obtained information, assessing its usefulness to solve the formulated problem	classifies informations stocks, and assess its usefullnes for digital economy analysis.	[SW3] Assessment of knowledge contained in written work and projects

Subject contents	Technological progress - fundamentals and paradigms. Technological progress for economic development. Technological progress in historical perspective. Technological revolutions. Digital technologies and their uniqueness. Features and adaptability. Diffusion process. Network effects and their implications. Digital technologies in modern economies. Digital technologies and structural changes. Digital technologies for labor markets. Electronic trade and digital globalization. Digital technologies for economically backward countries. Digital technologies - potential risks.

Prerequisites and co-requisites	Macroeconomics

Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	written exam	60.0%	50.0%
	written exam	60.0%	50.0%
