

## Subject card

Subject name and code	Software Licensing, PG_00064507								
Field of study	Informatics								
Date of commencement of studies	October 2024		Academic year of realisation of subject			2025/2026			
Education level	second-cycle studies		Subject group			Obligatory subject group in the field of study			
						Subject group related to scientific research in the field of study			
Mode of study	Full-time studies		Mode of delivery		at the university				
Year of study	2		Language of instruction		English				
Semester of study	3		ECTS credits		2.0				
Learning profile	general academic profile		Assessment form		assessment				
Conducting unit	Department of Comp	uter Architectur	e -> Faculty of	Electronics, To	elecomr	municat	ions and Info	rmatics	
Name and surname	Subject supervisor		dr inż. Tomasz Boiński						
of lecturer (lecturers)	Teachers		dr inż. Tomasz Boiński						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Projec	ct Seminar		SUM	
	Number of study hours	15.0	0.0	0.0	0.0		15.0	30	
	E-learning hours inclu			i		i			
Learning activity and number of study hours	Learning activity	y Participation in didactic classes included in study plan		Participation in consultation hours		Self-study SUM		SUM	
	Number of study hours	30		4.0		16.0		50	
Subject objectives	The subject aims at ir of the need to follow the	nforming studer hem.	nts about legal	background of	using C	OS soft	ware and mal	ke them aware	
Learning outcomes	Course outcome Subject outcome						Method of verification		
	[K7_W04] knows and understands, to an increased extent, the principles, methods and techniques of programming and the principles of computer software development or programming devices or controllers using microprocessors or other elements or programmable devices specific to the field of study, and organization of work of systems using computers or such devices		Student knows and understands impact of software licenses on software development and ability to use certain compoents		[SW1] Assessment of factual knowledge				
	[K7_U09] can carry out a critical analysis of the functioning of existing technical solutions and assess these solutions, as well as apply experience related to the maintenance of advanced technical systems, devices and facilities typical for the field of studies, gained in the professional engineering environment  [K7_U07] can apply advanced methods of process and function support, specific to the field of study  [K7_U71] is able to apply knowledge from humanistic, social, economic or legal sciences in order to solve problems		Student can critically analyze legal aspect of the software and can match software components correctly aligned in term of legal conditions  Student can correctly select open software components to realize computer processes  Student differentiate software licences and their impact on the software development		[SU3] Assessment of ability to use knowledge gained from the subject  [SU2] Assessment of ability to analyse information  [SU1] Assessment of task fulfilment				

Data wygenerowania: 25.11.2024 02:08 Strona 1 z 3

Subject contents	Open Source a Free Software						
	2. Different kind of software licenses						
	Management of a distributed software development project						
	4. Rules of bundling software into different Linux distributions						
	5. Development cycle of Linux distributions						
	Positive and negative aspects of Closed and Open Source						
	Intellectual property and patent law 8. Models of software patents in different countries						
	Open Source based commercial and a second commerc						
	Formats and protocols standardization process      Perspectives for Open Source						
	12. Final test						
Prerequisites							
and co-requisites							
Assessment methods	Subject passing criteria	Passing threshold	Percentage of the final grade				
and criteria	Presentation	50.0%	50.0%				
	Midterm colloquium	50.0%

Example issues/ example questions/ tasks being completed	What are the differences between OSI and FSF?
	Should software be patentable?
	What are the differences between GPL and LGPL licenses?
Work placement	Not applicable

Document generated electronically. Does not require a seal or signature.
