

Subject card

Subject name and code	, PG_00064556						
Field of study	Mechanical and Medical Engineering						
Date of commencement of studies	October 2021		Academic year of realisation of subject		2024/2025		
Education level	first-cycle studies		Subject group				
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	4		Language of instruction		Polish		
Semester of study	7		ECTS credits		1.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Institute of Manufacturing and Materials Technology -> Faculty of Mechanical Engineering and Ship Technology						
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. Magda Rościszewska				
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	0.0	0.0	0.0	0.0	15
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	15		0.0		0.0	15
Subject objectives	The aim of the course is to introduce methods and techniques of human resource management in the contemporary world, where economic development is rapid and intense. In particular, the area of interest includes trends and phenomena such as: virtualization, outsourcing, organizational culture, multiculturalism, leadership and people management, career management, employee motivation (compensation), and engagement.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K6_K01] he/she knows his/her proficiencies and his/her limitations in performing professional tasks, he/she is aware of needing to improve his/her skills through the whole life, he/she has entrepreneurship and innovation skills, he/she is aware of engineering skills from the society point of view		The student knows the tools and techniques for motivating and inspiring team members, as well as various leadership styles, adjusting them to the situation and the needs of the team.		[SK5] Assessment of ability to solve problems that arise in practice		
	[K6_W11] he/she is aware of social and juridical rules and general rules of creation and developing of individual entrepreneurship, business and quality management		The student knows the basic principles of ethics applicable in teamwork and the basic legal regulations in enterprises.		[SW2] Assessment of knowledge contained in presentation		
	[K6_K02] he/she is aware of importance of professional dealing and to fulfill ethics obligations, he/she understands other (non-technical) abilities of mechanical engineering professional, their influence on the society and security of environment, he/she is aware of importance of social cooperation		The student is able to identify sources of conflicts within the team and apply appropriate methods to resolve them.		[SK5] Assessment of ability to solve problems that arise in practice		

Subject contents	virtualization, outsourcing, organizational culture, multiculturalism, leadership and people management, career management, employee motivation (compensation), and engagement:		
	Utilization of employee traits and abilities		
	Motivation		
	Authority in management		
	Employee evaluation		
	Teams in the management process		
	Motivating and team effectiveness		
	Problem-solving in a team		
	Team leadership		
	Managerial potential in the organization.		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Presentation	56.0%	100.0%
