

Subject card

Subject name and code	Bridges , PG_00049208							
Field of study	Civil Engineering							
Date of commencement of studies	October 2024		Academic year of realisation of subject		2024/2025			
Education level	second-cycle studies		Subject group		Obligatory subject group in the field of study Subject group related to scientific research in the field of study			
Mode of study	Part-time studies		Mode of delivery		at the university			
Year of study	1		Language of instruction		Polish			
Semester of study	2		ECTS credits		4.0			
Learning profile	general academic profile		Assessment form		assessment			
Conducting unit	Department of Engineering Structures -> Faculty of Civil and Environmental Engineering							
Name and surname of lecturer (lecturers)	Subject supervisor Teachers		mgr inż. Maciej Malinowski					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM	
	Number of study hours	20.0	0.0	0.0	10.0	0.0	30	
	E-learning hours included: 0.0							
	Adresy na platformie eNauczanie:							
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM	
	Number of study hours	30		5.0		65.0	100	
Subject objectives	<ul style="list-style-type: none">acquainted with basic principles of designing, shaping, calculation of bridge structures,acquainted with basin informations of building of bridges,acquainted with basic methods of diagnosis and repair of bridges,							
Learning outcomes	Course outcome		Subject outcome		Method of verification			
	[K7_W02] knows principles of analysis, design and dimensioning of complex constructions and its elements		knows the principles of analysis, construction and dimensioning of bridges and their construction elements		[SW3] Assessment of knowledge contained in written work and projects [SW2] Assessment of knowledge contained in presentation [SW1] Assessment of factual knowledge			
	[K7_U02] can design and dimension complex steel, concrete (including reinforced), wood and masonry construtions and its details		is able to design and dimension metal structures of bridges as well as their elements and construction details		[SU4] Assessment of ability to use methods and tools [SU3] Assessment of ability to use knowledge gained from the subject [SU2] Assessment of ability to analyse information [SU1] Assessment of task fulfilment			
[K7_K04] understands the necessity of dissemination civil engineering knowlege in the society and to suport the proffesional ethos of a civil engineer		understands the need to provide the society with knowledge about bridge construction and to maintain the ethos of the profession of a civil engineer		[SK2] Assessment of progress of work [SK5] Assessment of ability to solve problems that arise in practice [SK3] Assessment of ability to organize work				

Subject contents	<p>Lectures:</p> <ol style="list-style-type: none"> 1. Principles and basics of shaping, constructing and dimensioning beam, truss, composite(concrete-steel), with orthotropic plate and arch bridges. 2. Construction details of basic types of bridges. 3. Methods of building bridges. 4. Bridge diagnostics - laboratory tests, in situ tests, load tests, monitoring systems. 5. Damages and methods of repair and strengthening of steel bridge structures. <p>Designing:</p> <p>Elements of the railway truss bridge.</p>									
Prerequisites and co-requisites	<p>Strength of materials.</p> <p>Building mechanics.</p> <p>Basics of bridge engineering</p>									
Assessment methods and criteria	<table border="1" data-bbox="446 691 1489 804"> <thead> <tr> <th data-bbox="446 691 794 729">Subject passing criteria</th><th data-bbox="794 691 1140 729">Passing threshold</th><th data-bbox="1140 691 1489 729">Percentage of the final grade</th></tr> </thead> <tbody> <tr> <td data-bbox="446 729 794 768">lectures</td><td data-bbox="794 729 1140 768">53.3%</td><td data-bbox="1140 729 1489 768">50.0%</td></tr> <tr> <td data-bbox="446 768 794 804">projects</td><td data-bbox="794 768 1140 804">53.3%</td><td data-bbox="1140 768 1489 804">50.0%</td></tr> </tbody> </table>	Subject passing criteria	Passing threshold	Percentage of the final grade	lectures	53.3%	50.0%	projects	53.3%	50.0%
