

Subject card

Subject name and code	Diploma seminar, PG_00064734						
Field of study	Management and Production Engineering						
Date of commencement of studies	February 2025		Academic year of realisation of subject		2025/2026		
Education level	second-cycle studies		Subject group		Optional subject group		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	2		Language of instruction		Polish		
Semester of study	3		ECTS credits		2.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department of Manufacturing and Production Engineering -> Faculty of Mechanical Engineering and Ship Technology						
Name and surname of lecturer (lecturers)	Subject supervisor		dr hab. inż. Stefan Dzionk				
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	30.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		4.0		16.0	50
Subject objectives	Familiarizing students with the methodology of writing a qualifying thesis and the way it is presented, including of the results and achievements obtained during the work.						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K7_U11] communicates and justifies opinions on specialized topics in a manner understandable to diverse audiences, including the use of modern techniques, including information technology		The student demonstrates knowledge of a specialist subject and explains its specificity to a diverse audience using audiovisual techniques.		[SU5] Assessment of ability to present the results of task		
	[K7_K12] is ready for fulfilling social commitment and initiation of actions for public interest including entrepreneurial thinking and acting		The student explains and describes the principles of entrepreneurial thinking and action in the public interest.		[SK4] Assessment of communication skills, including language correctness		
	[K7_K11] is aware of importance of professional acting, the need for critical verification of acquired knowledge and consulting experts opinion in case of facing difficulties with individual problem solving		The student demonstrates the ability to critically verify own knowledge. The student looking for the opinion of specialists in a given field in the process of solving tasks independently.		[SK3] Assessment of ability to organize work		
	[K7_U14] integrates information obtained from literature and other properly selected sources, including those in a foreign language, creatively interpreting and critically evaluating them, and drawing conclusions		The student demonstrates the ability to analyze, critically evaluate and integrate information obtained from various sources.		[SU2] Assessment of ability to analyse information		
Subject contents	Methodology of preparing an engineering thesis using current general and specialist knowledge. Methods of obtaining data from specialist literature as well as methods of selecting and developing data and presenting conclusions from a bibliographic review. Application of modern engineering tools, including computer techniques to solve engineering problems. Methodology of presenting results.						
Prerequisites and co-requisites							

Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Activity in class	60.0%	10.0%
	Summary rating	60.0%	30.0%
	Assessment of self-presentation	60.0%	30.0%
	Evaluation of the text development	60.0%	30.0%
Recommended reading	Basic literature	Bibliography advised by the project supervisor.	
	Supplementary literature	As above	
	eResources addresses	Adresy na platformie eNauczanie:	
Example issues/ example questions/ tasks being completed	The form and content of the diploma thesis and regulations concerning this subject. Methods of selecting and form of developing the literature review. Methods of conducting research and developing results. Presentation form of content contained in the diploma thesis.		
Work placement	Not applicable		

Document generated electronically. Does not require a seal or signature.
