

## Subject card

Subject name and code	Diploma seminar , PG_00064766						
Field of study	Power Engineering						
Date of commencement of studies	February 2025		Academic year of realisation of subject		2025/2026		
Education level	second-cycle studies		Subject group		Optional subject group		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	2		Language of instruction		Polish		
Semester of study	3		ECTS credits		2.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department of Electrical Power Engineering -> Faculty of Electrical and Control Engineering						
Name and surname of lecturer (lecturers)	Subject supervisor		dr inż. Izabela Prażuch				
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	30.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	30		4.0		16.0	50
Subject objectives	Preparing a multimedia presentation and written report referring to thesis						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K7_U12] develops her/his own potential and independently plans own, lifelong learning, while also being able to guide others in this regard		The student is able to correctly select a bibliography for the technical problems being analyzed. Is able to effectively use available publication databases.		[SU4] Assessment of ability to use methods and tools		
	[K7_U11] communicates and justifies opinions on specialized topics in a manner understandable to diverse audiences, including the use of modern techniques, including information technology		The student prepares a presentation discussing the results of the diploma thesis.		[SU1] Assessment of task fulfilment		
	[K7_K12] is ready for fulfilling social commitment and initiation of actions for public interest including entrepreneurial thinking and acting		The student understands the consequences of copyright infringement.		[SK5] Assessment of ability to solve problems that arise in practice		
	[K7_W13] explains the main principles of individual and teamwork organization, including various forms of entrepreneurship utilizing knowledge from the field of engineering and technical sciences and disciplines relevant to the course of study		The student is able to determine priorities that will allow for the effective implementation of the diploma thesis.		[SW2] Assessment of knowledge contained in presentation		

Subject contents	Legal conditions for obtaining a master's degree. Organising individual work and research. Requirements connected with diploma engineer theses, defence of a diploma engineer. Process of writing a diploma thesis, contents of a publication, writing technique, editing a publication, quotations, references, inserting schemas and graphs. The Problems of Copyright. How to prepare a good presentation and how to present it in an interesting way. What to pay attention to while reviewing a thesis. Reporting a thesis. Elaborating, reporting and discussing the results of individual work and research connected with students' theses during different stages, according to the following plan: the state of an issue in professional literature related to the topic of a thesis, the aim and range of a thesis, methods of conducting research, results of research, difficulties while realising a thesis, conclusions.		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	presentation	50.0%	50.0%
	paper	50.0%	50.0%
