GDAŃSK UNIVERSITY OF TECHNOLOGY

Subject card

Subject name and code	Modelling in machine design, PG_00064825
Field of study	Mechanical Engineering

Date of commencement of studies	February 2025	Academic year of realisation of subject	2024/2025
Education level	second-cycle studies	Subject group	Obligatory subject group in the field of study Subject group related to scientific research in the field of study
Mode of study	Full-time studies	Mode of delivery	at the university
Year of study	1	Language of instruction	English
Semester of study	1	ECTS credits	4.0
Learning profile	general academic profile	Assessment form	exam

Conducting unit	Division of Machine Design and Medical Engineering -> Institute of Mechanics and Machine Design -> Faculty of Mechanical Engineering and Ship Technology
Name and surname of lecturer (lecturers)	**Subject supervisor** prof. dr hab. inż. Michał Wasilczuk
	Teachers dr inż. Rafał Gawarkiewicz prof. dr hab. inż. Michał Wasilczuk

Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	0.0	0.0	30.0	0.0	60
	E-learning hours included: 0.0						

Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours	Self-study	SUM
	Number of study hours	60	7.0	33.0	100

Subject objectives	consolidation and use of knowledge from mechanical, mechanical, graphic and material science for design and construction

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K7_W02] demonstrates a structured and theoretically grounded knowledge of the key topics in Mechanical Engineering enabling the analysis and modelling of mechanical systems, processes and devices	The studnet shows knowledge covering key issues in the field of Mechanics and Machine Design allowing for the analysis and modeling of systems, processes and mechanical devices	[SW1] Assessment of factual knowledge
	[K7_W11] interprets social, economic, legal (including industrial and intellectual property laws), and other non-technical aspects of engineering activities, and includes them into engineering practice	the student interprets the social, economic, legal (including those related to the protection of industrial property and copyright) and other non-technical conditions of engineering activities and takes them into account in engineering practice	[SW1] Assessment of factual knowledge
	[K7_U02] formulates and solves technical problems specific to Mechanics and Mechanical Engineering using appropriate tools including CAD and MES systems, and prepares technical documentation	The student formulates and solves technical problems specific to Mechanics and Machine Design using appropriate tools, including CAD and MES systems, and prepares technical documentation.	[SU1] Assessment of task fulfilment
	[K7_U15] evaluates the feasibility of advanced methods and tools for solving complex engineering tasks of a practical nature, characteristic of the field of study, and selects and applies appropriate methods and tools for this purpose	the student assesses the usefulness of methods and tools for solving an engineering task of a practical nature, characteristic of the field of study, and selects and applies appropriate methods and tools for this purpose	[SU1] Assessment of task fulfilment
Subject contents	models: welded joints, bolted joints, shaft-hub joints, etc.		

Prerequisites and co-requisites	mechanics, strength of materials, etc.		
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	FEM project presentation	50.0%	50.0%
	class test	50.0%	50.0%
Recommended reading	Basic literature	machine design - any classical handbook	
	Supplementary literature	....	
	eResources addresses	Adresy na platformie eNauczanie: Modelling in machine design - Moodle ID: 45503 https://enauczanie.pg.edu.pl/moodle/course/view.php?id=45503	
Example issues/ example questions/ tasks being completed	graphicla type cannot be presented here		
Work placement	Not applicable		

Document generated electronically. Does not require a seal or signature.
