

## Subject card

Subject name and code	Engineering thesis, PG_00049152						
Field of study	Civil Engineering						
Date of commencement of studies	October 2021	Academic year of realisation of subject			2024/2025		
Education level	first-cycle studies	Subject group					
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	4	Language of instruction			Polish		
Semester of study	7	ECTS credits			15.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Department of Building Engineering -> Faculty of Civil and Environmental Engineering						
Name and surname of lecturer (lecturers)	Subject supervisor	dr inż. Anna Jakubczyk-Galczyńska					
	Teachers						
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	0.0	0
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study		SUM
	Number of study hours	0	10.0		365.0		375
Subject objectives	The aim of the course is the preparation, consultation, independent writing and verification of a diploma thesis.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K6_W16] Has deeper and adequate knowledge of civil engineering, within offered specialization	The student independently defines the topic of the work and is able to use the knowledge acquired during studies. The student is able to collect materials, determine the purpose of activities, conduct analyses/perform design tasks and conclusions in accordance with the topic of the diploma thesis.			[SW2] Assessment of knowledge contained in presentation		
	[K6_U17] has specialized skills in civil engineering within offered specialization	The student independently defines the topic of the work and is able to use the knowledge acquired during studies. The student is able to collect materials, determine the purpose of activities, conduct analyses/perform design tasks and conclusions in accordance with the topic of the diploma thesis.			[SU4] Assessment of ability to use methods and tools		
	[K6_K01] is aware of necessity of professional and personal competences improvement; complements and broadens his knowledge about modern processes and technologies	The student independently defines the topic of the work and is able to use the knowledge acquired during studies. The student is able to collect materials, determine the purpose of activities, conduct analyses/perform design tasks and conclusions in accordance with the topic of the diploma thesis.			[SK2] Assessment of progress of work		
	[K6_K02] is responsible for reliability of obtained results of research and its interpretation, formulates conclusions and describes results of own work	The student independently defines the topic of the work and is able to use the knowledge acquired during studies. The student is able to collect materials, determine the purpose of activities, conduct analyses/perform design tasks and conclusions in accordance with the topic of the diploma thesis.			[SK2] Assessment of progress of work		

Subject contents	The classes are consultations in stationary and on-line form, as well as in the form of sending data via e-learning for verification by the teacher in order to provide comments and tips.		
Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	assessment of thesis work	60.0%	100.0%
Recommended reading	Basic literature	Depends on the topic, selected by the Diplomate.	
	Supplementary literature	brak	
	eResources addresses	Adresy na platformie eNauzanie:	
Example issues/ example questions/ tasks being completed	N/A		
Work placement	Not applicable
