

## Subject card

Subject name and code	English Language II, PG_00047380							
Field of study	Automatic Control, Cybernetics and Robotics							
Date of commencement of studies	October 2023		Academic year of realisation of subject			2024/2025		
Education level	second-cycle studies		Subject group			Obligatory subject group in the field of study		
Mode of study	Full-time studies		Mode of delivery			at the university		
Year of study	2		Language of instruction			English		
Semester of study	3		ECTS credits			2.0		
Learning profile	general academic profile		Assessment form			assessment		
Conducting unit	Language Centre -> \	Language Centre -> Vice-Rector for Education						
Name and surname	Subject supervisor		mgr Joanna Pawlak-Mikuć					
of lecturer (lecturers)	Teachers		mgr Joanna Pawlak-Mikuć					
	mgr Hanna Rembowska							
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Projec	t	Seminar	SUM
	Number of study hours	0.0	30.0	0.0	0.0		0.0	30
	E-learning hours included: 0.0							
	Additional information: The label course  Język obcy, English Language, WETI, informatyka (st. w j. angielskim), II st, 3 sem							
	with information on all online courses supplementing traditional classes.							
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-st	udy	SUM
	Number of study hours	30		2.0		18.0		50
Subject objectives	Development and consolidation of English language command, including reading, speaking, listening, writing and translation in an academic environment.							

Data wygenerowania: 21.11.2024 22:30 Strona 1 z 4

Learning outcomes	Course outcome	Subject outcome	Method of verification
	[K7_W81] has knowledge of complex grammatical structures and diverse lexical resources needed to communicate in foreign language in terms of general and specialist language related to field of study	Students will be able to: • gain information from various sources without violating copyright law; • use specialist vocabulary in speaking and writing; • understand, analyse and translate technical texts written in English; • use formal English.	[SW2] Assessment of knowledge contained in presentation
	[K7_K82] is equipped to participate actively in lectures, seminars and laboratory classes conducted in foreign language	Students will be able to:  • communicate in English at university, in the workplace and in other environments;	[SK1] Assessment of group work skills [SK4] Assessment of communication skills, including language correctness
	[K7_U82] is able to proficiently obtain and process information related to field of study and academic environment in foreign language at B2+ level of the Common European Framework of Reference for Languages (CEFR)	Successful communication in daily life and in an academic and professional environment. Understanding of specialist literature and technical instructions. Translation of short technical texts. Writing formal letters, CVs, covering letters and summaries of specialist texts. Understanding of speeches and lectures.	[SU2] Assessment of ability to analyse information
	[K7_K81] is able to cooperate in international team at her/his own university, during work placement and during study abroad	Students will be able to:  • collaborate to produce a group project.	[SK1] Assessment of group work skills
	[K7_U81] is able to communicate with ease in foreign language at B2+ level of the Common European Framework of Reference for Languages (CEFR) in everyday life, in academic and professional environments	Students will be able to:  communicate in English at university, in the workplace and in other environments;  communicate in everyday English.	[SU3] Assessment of ability to use knowledge gained from the subject

Data wygenerowania: 21.11.2024 22:30 Strona 2 z 4

Deepening knowledge of basic and specialist terms and expressions used in technical and academic language as well as the language of work. Exercises concerning lexical structures, describing the physical properties of materials, shapes, basic mathematical terminology, interpreting figures and diagrams, and explaining processes. Introduction of specialist language in the field of biomedical engineering.  Grammar:  Using grammar appropriate to the given language level. Learning of structures essential for written and verbal communication in academic and professional environments.  Writing:  Practising skills in writing various texts essential in academic and work environments, including: reports, CVs, emails, summaries, notes, abstracts, instructions and descriptions of processes.  Reading:  Deepening reading comprehension of original academic and professional texts.  Listening:  Developing listening comprehension of original academic and professional texts.  Listening:  Practising communication skills in academic and work environments, and everyday life situations, such as: telephone conversations, interviews, customer service, lectures and presentations.  Speaking:  Practising communication skills in academic and work environments, such as: the giving of presentations, job interviews, formal and informal conversations, negotiating, presenting arguments, solving problems, participating in case studies, conducting formal meetings, etc. Practising the correct pronunciation and information of expressions.  Prerequisites  Before joining a language group, the student must first attain B2 level.
