

。 GDAŃSK UNIVERSITY OF TECHNOLOGY

Subject card

Subject name and code	Diploma Thesis, PG_00052338								
Field of study	Chemical Technology								
Date of commencement of studies	October 2021		Academic year of realisation of subject			2024/2025			
Education level	first-cycle studies		Subject group						
Mode of study	Full-time studies		Mode of delivery			at the university			
Year of study	4		Language of instruction			Polish			
Semester of study	7		ECTS credits			10.0			
Learning profile	general academic profile		Assessment form			assessment			
Conducting unit	Department of Electrochemistry, Cor		rosion and Materials Engineering ->			Faculty of Chemistry			
Name and surname	Subject supervisor		dr hab. inż. Stefan Krakowiak						
of lecturer (lecturers)	Teachers								
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Projec	t	Seminar	SUM	
	Number of study hours	0.0	0.0	0.0	0.0		0.0	0	
	E-learning hours included: 0.0								
Learning activity and number of study hours	Learning activity	Participation in classes includ plan	n didactic ed in study	Participation in consultation hours		Self-study		SUM	
	Number of study 0 hours			15.0		235.0		250	
Subject objectives	Completion of the engineering diploma thesis								
Learning outcomes	Course out	come	Subject outcome			Method of verification			
			knowledge and skills, understands the need for continuous professional education and personal development, self- assesses his own competences and improves his skills, sets directions for his own development and education			organize work [SK5] Assessment of ability to solve problems that arise in practice			
	K6_U01		Is able to learn independently, obtain information from literature, databases and other properly selected sources.			[SU2] Assessment of ability to analyse information [SU4] Assessment of ability to use methods and tools			
	K6_W12		Is able to use English-language resources on technological issues available in libraries and electronic databases			[SW3] Assessment of knowledge contained in written work and projects [SW2] Assessment of knowledge contained in presentation			
	K6_K05		Is able to present the effects of his work, convey information in a universally understandable way, communicate, self-assess and constructively evaluate the effects of other people's work.			[SK3] Assessment of ability to organize work [SK4] Assessment of communication skills, including language correctness			
Subject contents	Get acquainted with the literature available on the issues given by the job tutor. Selection, justification and development of a research method (experimental or theoretical). Conducting experimental studies, computer calculations or preparation of a technological project. Development of research results. Presentation of conclusions from the obtained results. Publication of the work.								
Prerequisites and co-requisites	Passing all basic sub	jects from previ	ous semesters	i.					
Assessment methods	hods Subject passing criteria		Passing threshold			Percentage of the final grade			
and criteria	project assessment by the supervisor.		80.0%			50.0%			
	project evaluation by the reviewer.			80.0%			50.0%		
Recommended reading	Basic literature		Publications and scientific books related to the subject of work.						

	Supplementary literature	no recommendations.			
	eResources addresses	Adresy na platformie eNauczanie:			
Example issues/ example questions/ tasks being completed					
Work placement	Not applicable				

Document generated electronically. Does not require a seal or signature.
