

Subject card

Subject name and code	Thesis Seminar , PG_00041398							
Field of study	Civil Engineering							
Date of commencement of studies	February 2025		Academic year of realisation of subject			2025/2026		
Education level	second-cycle studies		Subject group			Optional subject group		
Mode of study	Full-time studies		Mode of delivery			at the university		
Year of study	2		Language of instruction			Polish		
Semester of study	3		ECTS credits			3.0		
Learning profile	general academic profile		Assessment form			assessment		
Conducting unit	Department of Railwa	-> Faculty of Civil and Environmental Engineering						
Name and surname	Subject supervisor							
of lecturer (lecturers)	Teachers							
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	y Project Sem		Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0		45.0	45
	E-learning hours included: 0.0							
Learning activity and number of study hours	Learning activity	Participation i classes include plan		Participation in consultation hours		Self-study		SUM
	Number of study hours	45		5.0		25.0		75
Subject objectives	The aim of the course is to expand professional knowledge with contemporary / current issues related to the design, construction and maintenance of bridges							
Learning outcomes	Course out	Subject outcome			Method of verification			
	[K7_K01] is aware of necessity of professional competences improvement; obeys the professional ethics code		The ability to independently acquire knowledge and share it.					
	[K7_W15] has deep and adequate knowlege of civil engineering, within offered specialization and profile		increasing theoretical and practical knowledge based on the latest publications in technical media					
Subject contents	Presentations of selected technical issues prepared by the participants of the classes							
Prerequisites and co-requisites								
Assessment methods and criteria	Subject passing criteria		Passing threshold			Percentage of the final grade		
	evaluation of the prepared presentation		79.0%			100.0%		
Recommended reading	Basic literature	Magazines and technical media						
	Supplementary literature		Technical journal websites and databases					
	eResources addresse	Adresy na platformie eNauczanie:						
Example issues/ example questions/ tasks being completed	Technology of construction of the completed facility. Theoretical issues related to the selected construction technology.							
	Breakdown of the bridge structure							
Work placement	Not applicable							

Document generated electronically. Does not require a seal or signature.
