

Subject card

	T							
Subject name and code	Master's thesis, PG_00065905							
Field of study	Nuclear Engineering							
Date of commencement of studies	February 2025		Academic year of realisation of subject			2025/2026		
Education level	second-cycle studies		Subject group			Optional subject group		
Mode of study	Full-time studies		Mode of delivery			at the university		
Year of study	2		Language of instruction			Polish		
Semester of study	3		ECTS credits			20.0		
Learning profile	general academic profile		Assessment form			assessment		
Conducting unit	Institute of Energy -> Faculty of Mechanical Engineering and Ship Technology							
Name and surname	Subject supervisor	sor dr inż. Marcin Jewartowski						
of lecturer (lecturers)	Teachers							
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	t	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	.0 0.0		0.0	0
	E-learning hours inclu			<u> </u>				
Learning activity and number of study hours	Learning activity	Participation in classes include plan		Participation in consultation hours		Self-study		SUM
	Number of study hours	0		30.0		470.0		500
Subject objectives	Preparation by the student of a master's thesis on a topic and scope defined by the Supervisor.							
Learning outcomes	Course outcome		Subject outcome			Method of verification		
	[K7_K81] is able to cooperate in international team at her/his own university, during work placement and during study abroad		independently or in a group and is also able to join international			[SK3] Assessment of ability to organize work [SK1] Assessment of group work skills		
	[K7_K11] is aware of importance of professional acting, the need for critical verification of acquired knowledge and consulting experts opinion in case of facing difficulties with individual problem solving		Student prepares a diploma thesis. Student performs, using appropriate techniques and tools, the necessary models, calculations, research, analyses, comparisons and projects and describes them in the thesis. Student verifies the acquired knowledge through consultation with the thesis Supervisor and, if necessary, other experts.			[SK2] Assessment of progress of work		
	[K7_U14] integrates information obtained from literature and other properly selected sources, including those in a foreign language, creatively interpreting and critically evaluating them, and drawing conclusions		Student presents a critical review of the literature related to the topic of the thesis, also in a foreign language, and uses the obtained information to complete the task set in the thesis.			[SU1] Assessment of task fulfilment [SU2] Assessment of ability to analyse information [SU4] Assessment of ability to use methods and tools		
	[K7_K13] is ready for responsible performance of proffesional roles, considering ever-changing need of the society, including self developement and supporting and fullfiling work ethics		Student prepares a diploma thesis in a responsible manner, also taking into account its non-technical aspects.			[SK5] Assessment of ability to solve problems that arise in practice		
Subject contents	Rules and requirements for a Master's thesis. Realization of the thesis under the guidance of a supervisor in accordance with the defined topic and scope. Consultation of the thesis with the supervisor and, if necessary, other experts. Editorial preparation of the content of the thesis for its publication. Preparation of a multimedia presentation.							
Prerequisites and co-requisites	Registration for the di	ploma semeste	er.
