

Subject card

Subject name and code	English, PG_00051734							
Field of study	Materials Engineering, Nanotechnology							
Date of commencement of	October 2024	1			2024/2025			
studies	October 2024		Academic year of realisation of subject			2024/2025		
Education level	second-cycle studies		Subject group					
Mode of study	Full-time studies		Mode of delivery		at the	at the university		
Year of study	1		Language of instruction			English		
Semester of study	2		ECTS credits			2.0		
Learning profile	general academic profile		Assessment form			assessment		
Conducting unit	Language Centre -> \	Vice-Rector for	Education					
Name and surname	Subject supervisor		mgr Martyna Michalska-Pieniak					
of lecturer (lecturers)	Teachers mgr Martyna Michalska-Pieniak							
Lesson types and methods	Lesson type	Lecture	Tutorial	Laboratory	Projec	t	Seminar	SUM
of instruction	Number of study hours	0.0	30.0	0.0	0.0		0.0	30
	E-learning hours inclu	uded: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study St		SUM
	Number of study hours	30		0.0		0.0		30
Subject objectives	.The aim of the course is to develop the ability to use English effectively in the academic and professional environments.							
Learning outcomes	Course out	come	Subject outcome		Method of verification			
	[K7_W81] has knowledge of complex grammatical structures and diverse lexical resources needed to communicate in foreign language in terms of general and specialist language related to field of study		Students will be able to: • gain information from various sources without violating copyright law; • use specialist vocabulary in speaking and writing; • understand, analyse and translate technical texts written in English; • use formal English.			[SW2] Assessment of knowledge contained in presentation		
	[K7_U82] is able to proficiently obtain and process information related to field of study and academic environment in foreign language at B2+ level of the Common European Framework of Reference for Languages (CEFR) [K7_K82] is equipped to participate actively in lectures, seminars and laboratory classes conducted in foreign language		Successful communication in daily life and in an academic and professional environment. Understanding of specialist literature and technical instructions. Translation of short technical texts. Writing formal letters, CVs, covering letters and summaries of specialist texts. Understanding of speeches and lectures. Students will be able to: • communicate in English at university, in the workplace and in other environments;		[SU2] Assessment of ability to analyse information [SK4] Assessment of communication skills, including language correctness [SK1] Assessment of group work skills			

Data wygenerowania: 22.12.2024 13:48 Strona 1 z 3

Professional language development enhanced by scenario-based exercises, case studies, comprehension tasks, reading assignments, professional articles, vocabulary exercises contextualized in the field of materials engineering. Witting: Developing skills in writing various texts essential in the academic and work environments, including an abstract of an academic thesis, a report, a calab analyse and a process description. Developing writing section-quest such as syste and register, coherence and coheron, using in text references and paraphresing. Reading: Developing comprehension skills in reading academic and professional texts, with particular emphasis on critical reading, skirming and scanning, selecting and prioritising information, recognising and understanding implicit meanings, and note taking. Listering and speaking: Developing listering comprehension and communication skills in the academic and work environments. Practising giving presentations, participating in formal business meetings, videoconferences and negotiations. Developing intercultural awareness, critical trinking and project management skills. Prerequisites Before joining a language group, students are expected to demonstrate language ability at level B2. Writing: Subject passing critical Passing threshold Percentage of the final grade writing to do 0.0% also 0.0% also 0.0% also 0.0% prosentation. tasks, reading assignments, professional articles, vocabulary exercises contextualized in the fleid of materials engineering. Writing: Developing skills in writing various texts essential in the academic and work environments, including an abstract of an academic thesis, a report, a data analysis and a process description. Developing writing techniques such as style and register, coherence and othesion, using in-text references and paraphrasing. Reading: Developing comprehension skills in reading academic and professional texts, with particular emphasis on critical reading, activities and accommal, selecting and profitsing information, recognising and undestanding implicit meanings, and cost testing. Listening and speaking: Developing listening comprehension and communication skills in the academic and work environments. Practising glying presentations, participating in formal business meetings, videoconferences and negotiations. Developing listening comprehension and communication skills in the academic and work environments. Practising glying presentations, participating in formal business meetings, videoconferences and negotiations. Developing listening comprehension and communication skills in the academic and work environments. Practising glying presentations. Paractising the formal business meetings, videoconferences and negotiations. Developing listening and available in the academic and work environments. Practising glying presentations. Before joining a language group, students are expected to demonstrate language ability at level B2. Assessment methods and contents are expected to demonstrate language ability at level B2. **Conduction of the final grade wirting and contents are expected to demonstrate language ability at level B2. **Conduction of the final grade wirting and contents are expected to demonstrate language ability at level B2. **Conduction of the final grade and contents are expected to demonstrate language ability at level B2. **Conduction of the final grade and contents are
