

Subject card

Subject name and code	Diploma seminar, PG_00062454						
Field of study	Transport						
Date of commencement of studies	February 2025	Academic year of realisation of subject			2025/2026		
Education level	second-cycle studies	Subject group			Optional subject group		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	2	Language of instruction			Polish		
Semester of study	3	ECTS credits			3.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Department of Transportation Engineering -> Faculty of Civil and Environmental Engineering -> Faculties of Gdańsk University of Technology						
Name and surname of lecturer (lecturers)	Subject supervisor	prof. dr hab. inż. Eligiusz Mieloszyk					
	Teachers						
Lesson types	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	0.0	0.0	0.0	0.0	30.0	30
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study	SUM	
	Number of study hours	30	10.0		35.0	75	
Subject objectives	The aim of subject is to learn about modern solutions in the range of transport on the basis of source material study.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K7_U06] develops their potential using their own initiative and experience, taking personal responsibility for striving to achieve their goals and increasing opportunities for personal development as well as those of their colleagues	Student develops their potential using their own initiative and experience, taking personal responsibility for striving to achieve their goals and increasing opportunities for personal development as well as those of their colleagues.			[SU1] Assessment of task fulfilment [SU2] Assessment of ability to analyse information		
	[K7_K03] demonstrates the ability to identify ethical dilemmas and recognize and evaluate alternative courses of action	Student demonstrates the ability to identify ethical dilemmas and recognize and evaluate alternative courses of action, especially with regard to issues related to rail transport infrastructure.			[SK2] Assessment of progress of work		
	[K7_U04] prepares and presents convincing, professional presentations of analysis results with their in-depth interpretation	Student prepares and presents convincing, professional presentations of analysis results with their in-depth interpretation, especially in the scope of rail transport infrastructure.			[SU5] Assessment of ability to present the results of task [SU4] Assessment of ability to use methods and tools		
Subject contents	Course content – seminar The thematic area of undertaken questions is very wide.						
Prerequisites and co-requisites							
Assessment methods and criteria	Subject passing criteria	Passing threshold		Percentage of the final grade			
	performance of the paper	60.0%		60.0%			
	presentation	60.0%		40.0%			

Recommended reading	Basic literature	1. The articles and conference papers regarding the subject matter of transport. 2. The materials available on the Internet. 3. The materials delivered by lecturer.
	Supplementary literature	the law concerning transport
	eResources addresses	
Example issues/ example questions/ tasks being completed	the thematic area of undertaken questions is very wide	
Practical activities within the subject	Not applicable	

Document generated electronically. Does not require a seal or signature.
