

Subject card

Subject name and code	EXPERT SYSTEMS IN BUSINESS, PG_00058597						
Field of study	Economic Analytics						
Date of commencement of studies	October 2022	Academic year of realisation of subject			2024/2025		
Education level	first-cycle studies	Subject group			Obligatory subject group in the field of study Subject group related to scientific research in the field of study		
Mode of study	Part-time studies	Mode of delivery			blended-learning		
Year of study	3	Language of instruction			Polish		
Semester of study	6	ECTS credits			3.0		
Learning profile	general academic profile	Assessment form			exam		
Conducting unit	Department of Informatics in Management -> Faculty of Management and Economics						
Name and surname of lecturer (lecturers)	Subject supervisor	dr inż. Anna Trzaskowska					
	Teachers	dr inż. Anna Trzaskowska					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	8.0	0.0	16.0	0.0	0.0	24
	E-learning hours included: 12.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	24		5.0		46.0	75
Subject objectives	Presentation of expert systems as tools aimed at supporting decision-making in organizations; acquiring theoretical and practical knowledge necessary to operate and design IT solutions using the knowledge inferencing mechanisms and knowledge base.						
Learning outcomes	Course outcome	Subject outcome			Method of verification		
	[K6_W02] Demonstrates advanced knowledge of methods and techniques related to the field of study in economic analytics to explain complex problems.	identifies quantitative methods and information technologies appropriate to support the analysis of economic phenomena			[SW3] Assessment of knowledge contained in written work and projects [SW2] Assessment of knowledge contained in presentation		
	[K6_U07] Applies advanced information technologies to enhance data analysis and decision-making processes.	uses IT tools adequate to solve contemporary economic problems, including supporting decisionmaking processes			[SU5] Assessment of ability to present the results of task [SU4] Assessment of ability to use methods and tools [SU2] Assessment of ability to analyse information		

Subject contents	<p>1. Introduction to expert systems - definition of basic concepts: data, information, knowledge, formalization of knowledge; expert systems - classification, applications, construction and examples.</p> <p>2. Creating expert systems - causes, design stages, types, advantages and defects, knowledge acquisition; structure of the expert system - discussion of components (knowledge base, requesting machine, explanatory module, user contact interface).</p> <p>3. Knowledge representation - the process of knowledge acquisition, knowledge base, methods of representation, languages of representation knowledge.</p> <p>4. Complex ways of knowledge representation - semantic networks, predicates and resolution methods, frameworks, networks neural, fuzzy sets and fuzzy logic, genetic algorithms, evolutionary programming, scenarios, the Delphi method.</p> <p>5. Information technologies supporting the construction of expert systems - programming languages in logic - Prolog.</p> <p>6. Designing a simple rule expert system - market analysis, concept, knowledge base, project schedule, business case.</p>											
Prerequisites and co-requisites												
Assessment methods and criteria	<table border="1"> <thead> <tr> <th data-bbox="454 1055 794 1084">Subject passing criteria</th> <th data-bbox="799 1055 1139 1084">Passing threshold</th> <th data-bbox="1144 1055 1482 1084">Percentage of the final grade</th> </tr> </thead> <tbody> <tr> <td data-bbox="454 1090 794 1117">laboratory</td> <td data-bbox="799 1090 1139 1117">60.0%</td> <td data-bbox="1144 1090 1482 1117">80.0%</td> </tr> <tr> <td data-bbox="454 1124 794 1151">exam - test</td> <td data-bbox="799 1124 1139 1151">60.0%</td> <td data-bbox="1144 1124 1482 1151">20.0%</td> </tr> </tbody> </table>			Subject passing criteria	Passing threshold	Percentage of the final grade	laboratory	60.0%	80.0%	exam - test	60.0%	20.0%
Subject passing criteria	Passing threshold	Percentage of the final grade										
laboratory	60.0%	80.0%										
exam - test	60.0%	20.0%										
Recommended reading	Basic literature	<p>1.
