

Subject card

Subject name and code	Equality in Science, Education, and Research, PG_00066750						
Field of study	Economic Analytics						
Date of commencement of studies	October 2022	Academic year of realisation of subject			2024/2025		
Education level	first-cycle studies	Subject group			Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Full-time studies	Mode of delivery			at the university		
Year of study	3	Language of instruction			Polish		
Semester of study	6	ECTS credits			6.0		
Learning profile	general academic profile	Assessment form			assessment		
Conducting unit	Department of Statistics and Econometrics -> Faculty of Management and Economics						
Name and surname of lecturer (lecturers)	Subject supervisor	dr Dagmara Nikulin					
	Teachers	dr Dagmara Nikulin					
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	30.0	30.0	0.0	0.0	0.0	60
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan	Participation in consultation hours		Self-study	SUM	
	Number of study hours	60	10.0		80.0	150	
Subject objectives	The aim of the course is to develop the ability to identify and analyze social inequalities and to formulate research problems from the perspective of diversity. Participants will also gain practical skills in the implementation of equality policy in social life.						
Learning outcomes	Course outcome	Subject outcome		Method of verification			
	[K6_W04] Possesses advanced knowledge of the principles of creative and entrepreneurial action, including identifying and implementing innovative ideas while considering copyright protection requirements.	identifies phenomena of social inequality in various contexts		[SW1] Assessment of factual knowledge [SW2] Assessment of knowledge contained in presentation [SW3] Assessment of knowledge contained in written work and projects			
	[K6_K03] Critically evaluates their own knowledge necessary to solve cognitive and practical problems, supplementing gaps with input from external experts.	formulates research problems taking into account the diversity perspective and solves them		[SK1] Assessment of group work skills [SK4] Assessment of communication skills, including language correctness [SK5] Assessment of ability to solve problems that arise in practice			
Subject contents	<p>Introduction to equality and diversity. Equality and social justice. Definitions and key concepts: equality, justice, inclusion, discrimination, prejudice, stereotypes. Diversity and social inequality. Discussion of different aspects of diversity: gender, race, ethnicity, age, disability, religion, socio-economic status. Equality and diversity in education. Inequalities in access to education. Barriers and challenges facing different social groups. Stereotypes and prejudices in education. Creating an inclusive educational environment. Good practices and strategies. Diversity in academia. Equality and diversity in scientific research. The perspective of diversity in scientific research. Diversity in research methodology. Research ethics in the context of diversity. Equality and diversity in socio-economic life. Diversity in the labour market. Equality and diversity in politics and public life.</p>						

Prerequisites and co-requisites			
Assessment methods and criteria	Subject passing criteria	Passing threshold	Percentage of the final grade
	Tests (4)	60.0%	40.0%
	Final project	60.0%	60.0%
