

Subject card

Subject name and code	WELL-BEING AT PERSONAL, PROFESSIONAL AND PLANETARY LEVEL, PG_00066794						
Field of study	Economic Analytics						
Date of commencement of studies	October 2023		Academic year of realisation of subject		2024/2025		
Education level	second-cycle studies		Subject group		Optional subject group Subject group related to scientific research in the field of study		
Mode of study	Full-time studies		Mode of delivery		at the university		
Year of study	2		Language of instruction		Polish		
Semester of study	4		ECTS credits		3.0		
Learning profile	general academic profile		Assessment form		assessment		
Conducting unit	Department of Management -> Faculty of Management and Economics						
Name and surname of lecturer (lecturers)	Subject supervisor		dr Magdalena Fabjanowicz				
	Teachers		dr Magdalena Fabjanowicz				
Lesson types and methods of instruction	Lesson type	Lecture	Tutorial	Laboratory	Project	Seminar	SUM
	Number of study hours	15.0	30.0	0.0	0.0	0.0	45
	E-learning hours included: 0.0						
Learning activity and number of study hours	Learning activity	Participation in didactic classes included in study plan		Participation in consultation hours		Self-study	SUM
	Number of study hours	45		5.0		25.0	75
Subject objectives	<p>This course is based on the idea that achieving sustainable well-being requires a holistic approach, aligning personal, professional, and planetary welfare. It aims to foster wellness across these three dimensions by empowering individuals with the necessary knowledge and skills to enact meaningful action.</p> <p>Students will examine strategies for achieving well-being in three dimensions: personal, professional and planetary not only for the benefit of their own, but also for the broader community and environment. Through a combination of theoretical frameworks and practical applications, the course aims to promote holistic well-being that integrates the three dimensions.</p>						
Learning outcomes	Course outcome		Subject outcome		Method of verification		
	[K7_W01] identifies in-depth the phenomena related to the field of study and the theories describing them and possible analytical methods		Identifies and analyzes key phenomena related to a holistic approach to well-being on personal, professional, and planetary levels. Recognizes and explains theories describing strategies for achieving sustainable well-being, taking into account an interdisciplinary approach that includes psychology, ecology, and management.		[SW3] Assessment of knowledge contained in written work and projects [SW2] Assessment of knowledge contained in presentation		
	[K7_U02] presents logical and solid arguments about the obtained results, by analyzing and synthesizing information in various business contexts, approaching their interpretation critically		Selects and applies appropriate analytical methods to assess the effectiveness of strategies promoting well-being in individual, organizational, and environmental contexts. Critically evaluates contemporary challenges related to well-being and proposes evidence-based solutions that support balance between personal, professional, and planetary aspects.		[SU3] Assessment of ability to use knowledge gained from the subject [SU5] Assessment of ability to present the results of task		

Subject contents	<p>Module 1: Personal well-being</p> <ol style="list-style-type: none">1. Introduction to mindfulness, resilience, and mental health.2. Strategies for maintaining physical health.3. Role of personal values and goals in achieving well-being. <p>Module 2: Professional well-being</p> <ol style="list-style-type: none">1. Dynamic changes in working life and connection between resilience and professional wellbeing.2. JD-R model and Job Crafting3. Work-life balance and stress management.4. Building culture supporting employee well-being. <p>Module 3: Planetary well-being</p> <ol style="list-style-type: none">1. Global challenges and strategies; absolute sustainability and planetary boundaries concept definition2. Systematic view on planetary health3. Sustainable consumption and production: from global to individual level4. Environmental impact, economic/social cost of consumption <p>Module 4: Integration and Application</p> <ol style="list-style-type: none">1. Developing personal and professional well-being plans.2. Implementing sustainable practices in daily life and career paths.3. Case studies and group projects on creating a positive social and environmental impact.
