

## Subject card

|   |  |  |   |                                     |   |            |     |
|---|--|--|---|-------------------------------------|---|------------|-----|
| Subject name and code                       | Team research project I, PG_00066876   |  |   |                                     |   |            |     |
| Field of study                              | Economic Analytics   |  |   |                                     |   |            |     |
| Date of commencement of studies             | October 2024   | Academic year of realisation of subject  |   |                                     | 2024/2025   |            |     |
| Education level                             | second-cycle studies   | Subject group  |   |                                     | Obligatory subject group in the field of study<br>Subject group related to scientific research in the field of study            |            |     |
| Mode of study                               | Part-time studies  | Mode of delivery   |   |                                     | at the university   |            |     |
| Year of study                               | 1  | Language of instruction  |   |                                     | Polish  |            |     |
| Semester of study                           | 2  | ECTS credits   |   |                                     | 3.0   |            |     |
| Learning profile                            | general academic profile   | Assessment form  |   |                                     | none  |            |     |
| Conducting unit                             | Department of Management Engineering and Quality -> Faculty of Management and Economics  |  |   |                                     |   |            |     |
| Name and surname of lecturer (lecturers)    | Subject supervisor   | dr inż. Grzegorz Zieliński   |   |                                     |   |            |     |
|   | Teachers   | dr inż. Grzegorz Zieliński   |   |                                     |   |            |     |
| Lesson types and methods of instruction     | Lesson type  | Lecture  | Tutorial  | Laboratory                          | Project   | Seminar    | SUM |
|   | Number of study hours  | 0.0  | 0.0   | 0.0                                 | 18.0  | 0.0        | 18  |
|   |  | E-learning hours included: 0.0   |   |                                     |   |            |     |
| Learning activity and number of study hours | Learning activity  | Participation in didactic classes included in study plan   |   | Participation in consultation hours |   | Self-study | SUM |
|   | Number of study hours  | 18   |   | 3.0                                 |   | 54.0       | 75  |
| Subject objectives                          | The aim of the subject is to learn about practical aspects of conducting research and application projects   |  |   |                                     |   |            |     |
| Learning outcomes                           | Course outcome   | Subject outcome  |   |                                     | Method of verification  |            |     |
|   | [K7_W101] is able to make an in-depth identification of key objects and phenomena related to the field of study, as well as theories that describe them and applicable analytical and design methods | identifies in-depth objects and phenomena as well as theories and analytical and practical methods in conducting team projects   |   |                                     | [SW2] Assessment of knowledge contained in presentation<br>[SW3] Assessment of knowledge contained in written work and projects |            |     |
|   | [K7_K101] acknowledges the importance of knowledge related to the field of study in solving cognitive and practical problems, critically assessing the information obtained                          | recognizes the importance of knowledge related to the studied field in the implementation of a team research project   |   |                                     | [SK5] Assessment of ability to solve problems that arise in practice<br>[SK1] Assessment of group work skills                   |            |     |
|   | [K7_U101] is able to formulate complex research problems and adopts appropriate methods, obtaining innovative solutions, cooperating with other people, both as a leader and a team member           | formulates assumed research problems and selects methods to obtain innovative solutions through cooperation with other people both as a leader and a member of the research team |   |                                     | [SU5] Assessment of ability to present the results of task<br>[SU1] Assessment of task fulfilment                               |            |     |
| Subject contents                            | Implementation of a selected research topic under the supervision of a supervisor from the Gdańsk University of Technology in the area of research, application or technology companies projects     |  |   |                                     |   |            |     |
| Prerequisites and co-requisites             |  |  |   |                                     |   |            |     |
| Assessment methods and criteria             | Subject passing criteria   |  | Passing threshold   |                                     | Percentage of the final grade   |            |     |
|   | Lectures   |  | 50.0%   |                                     | 50.0%   |            |     |
|   | Report   |  | 60.0%   |                                     | 50.0%   |            |     |
| Recommended reading                         | Basic literature   |  | Recommended as part of the selected topic by the instructor in accordance with the project subject. |                                     |   |            |     |
