

## Subject card

| Subject name and code                       | Software Licensing, PG_00064507   |   |   |  |  |  |         |     |
|---|---|---|---|--|--|--|---------|-----|
| Field of study                              | Informatics   |   |   |  |  |  |         |     |
| Date of commencement of studies             | February 2026   |   | Academic year of realisation of subject   |  | 2026/2027  |  |         |     |
| Education level second-cycle studies        |   | Subject group                               |   | Obligatory subject group in the field of study |  |  |         |     |
|   |   |   |   |  |  | Subject group related to scientific research in the field of study |         |     |
| Mode of study                               | Full-time studies   |   | Mode of delivery  |  | at the university  |  |         |     |
| Year of study                               | 1   |   | Language of instruction   |  | English  |  |         |     |
| Semester of study                           | 2   |   | ECTS credits  |  | 2.0  |  |         |     |
| Learning profile                            | general academic profile  |   | Assessment form   |  | assessment   |  |         |     |
| Conducting unit                             | Department Of Computer Architecture -> Faculty Of Electronics Telecommunications And Informatics -> Wydziały Politechniki Gdańskiej   |   |   |  |  |  |         |     |
| Name and surname of lecturer (lecturers)    | Subject supervisor  |   | dr inż. Tomasz Boiński  |  |  |  |         |     |
|   | Teachers  | dr inż. Tomasz Boiński                      |   |  |  |  |         |     |
| Lesson types and methods                    | Lesson type   | Lecture                                     | Tutorial  | Laboratory                                     | atory Project  |  | Seminar | SUM |
| of instruction                              | Number of study hours   | 15.0  | 0.0   | 0.0  | 0.0  |  | 15.0    | 30  |
|   | E-learning hours inclu  | i   |   |  |  |  |         |     |
| Learning activity and number of study hours | Learning activity   | Participation in<br>classes include<br>plan |   | Participation in consultation hours            |  | Self-study   |         | SUM |
|   | Number of study hours   |   |   | 4.0  |  | 16.0   |         | 50  |
| Subject objectives                          | The subject aims at informing students about legal background of using OS software and make them aware of the need to follow them.  |   |   |  |  |  |         |     |
| Learning outcomes                           | Course out  | Subject outcome                             |   |  | Method of verification   |  |         |     |
|   | [K7_U71] is able to apply<br>knowledge from humanistic,<br>social, economic or legal sciences<br>in order to solve problems   |   | Student differentiate software licences and their impact on the software development  |  | [SU1] Assessment of task fulfilment                                  |  |         |     |
|   | [K7_U07] can apply advanced methods of process and function support, specific to the field of study   |   | Student can correctly select open software components to realize computer processes   |  | [SU2] Assessment of ability to analyse information                   |  |         |     |
|   | [K7_U09] can carry out a critical analysis of the functioning of existing technical solutions and assess these solutions, as well as apply experience related to the maintenance of advanced technical systems, devices and facilities typical for the field of studies, gained in the professional engineering environment   |   | Student can critically analyze legal aspect of the software and can match software components correctly aligned in term of legal conditions |  | [SU3] Assessment of ability to use knowledge gained from the subject |  |         |     |
|   | [K7_W04] knows and understands, to an increased extent, the principles, methods and techniques of programming and the principles of computer software development or programming devices or controllers using microprocessors or other elements or programmable devices specific to the field of study, and organization of work of systems using computers or such devices |   | Student knows and understands impact of software licenses on software development and ability to use certain compoents                      |  | [SW1] Assessment of factual knowledge                                |  |         |     |
